PHILOSOPHY STATEMENT

In preparing individuals to develop their fullest potential for living in the society of today and tomorrow, the Board of Education and the staff of the School District:

- I. Recognize their responsibility to help meet the physical, intellectual and emotional needs of children; particularly the needs to inquire, learn, think, and create; to establish aesthetic, moral and ethical values; and to relate satisfactorily to others in social situations involving family, work, government and recreation.
- II. Accept primary responsibility for giving students a mastery of the basic skills of learning, thinking and problem-solving; for teaching them to use the various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human endeavor.
- III. Acknowledge the importance of their supplemental role to the home and other social agencies in developing habits and attitudes which make for effective personal living, the maintenance of optimum physical and mental health, and the establishment of sound moral, ethical, and aesthetic values.

Realizing that education, as here defined, is a lifelong process, the School System seeks to orient its graduates toward various types of post-secondary education and further formal training and study of many types; and to provide educational opportunities particularly suited to the needs of adults, both as individuals and as citizens in a democracy.

EQUAL OPPORTUNITY AND NONDISCRIMINATION

The Board of Education, its officers and employees, will not discriminate in its programs and activities on the basis of race, (including traits historically associated with race, such as hair texture and protective hairstyles like braids, locks and twists), color, national origin, creed, religion, marital status, sex, age, sexual orientation, disability or predisposing genetic characteristic. The district will provide notice of this policy in accordance with federal and state law and regulation.

This policy of nondiscrimination includes access by students to educational programs, counseling services for students, course offerings, and student activities, as well as recruitment and appointment of employees and employment pay, benefits, advancement and/or terminations.

Specific protections for students under the Dignity for All Students Act are addressed in policy 0115, Student Bullying and Harassment Prevention and Intervention.

A finding that an individual has engaged in conduct in violation of this policy may result in disciplinary action and/or filing of a report with third parties in the manner prescribed by the district code of conduct, the law or applicable contract.

Nothing in this policy will be construed to prohibit a denial of admission into, or exclusion from, a course of instruction or activity based on a person's gender that would be permissible under the law, or to prohibit, as discrimination based on disability, actions that would be permissible under the law.

Annual Notification

At the beginning of each school year, the district will publish a notice of the established grievance procedures for resolving complaints of discrimination to parents/guardians, employees, students and the community. The public notice will:

1. inform parents, employees, students and the community that education programs, including but not limited to vocational programs, are offered without regard to actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex; sexual orientation, or gender (including gender identity and expression;
2. provide the name, address and telephone number of the person designated to coordinate activities concerning discrimination; and

GENDER NEUTRAL SINGLE-OCCUPANCY BATHROOMS

All single-occupancy bathroom facilities in the district are designated as gender neutral. Signs designating gender neutral single-occupancy bathrooms must be posted on the wall next to the door of that bathroom facility.

A “single-occupancy bathroom” is as defined in Public Buildings Law §145(d) as “a bathroom intended for use by no more than one occupant at a time or for family or assisted use and which has a door for entry into and egress from the bathroom that may be locked by the occupant to ensure privacy.”

The Superintendent of Schools or designee is directed to post appropriate signage to implement this policy consistent with applicable laws. Handbooks, directional signs, memos, safety plans, and maps will also be updated as necessary.

EQUITY, INCLUSIVITY, AND DIVERSITY IN EDUCATION

The Board of Education is committed to creating and maintaining a positive and inclusive learning environment where all students, especially those currently and historically marginalized, feel safe, included, welcomed, and accepted, and experience a sense of belonging and academic success.

Generally Accepted Beliefs and Agreements

All children deserve to have equal access to opportunity regardless of the color of their skin, their gender, their sexual orientation, the language they speak or their background. This freedom is fundamental to our K-12 education program and is extended to everyone without exception. However, the district also recognizes that students have been historically marginalized due to inequities associated with aspects of their identities and their contexts, including, but not limited to, race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex; sexual orientation, or gender (including gender identity and expression). Racism, discrimination, and marginalization of any people or groups of people, whether intentional or not, have no place in our schools, our district or our community. Such actions damage not only those individuals and groups at which they are directed, but also our community as a whole. We are committed to addressing these inequities and helping each and every student to equitably access learning opportunities in school to enable them all to thrive and to build a better society.

Goals

The goal of the school district is to provide equitable, inclusive and diverse opportunities for all students to reach their highest potential. To achieve educational equity and inclusive education, the district will acknowledge the presence of culturally diverse students and the need for students to find relevant connections among themselves and the subject matter and the tasks teachers ask them to perform. The district will develop the individual and organizational knowledge, attitudes, skills, and practices to create culturally responsive learning and working environments that expect and support high academic achievement for students and employees from all racial groups. Differences will not just be seen as strengths, but they will be nourished, celebrated, and welcomed because they are what make students and families unique.

In order to truly realize this goal, it is imperative that the Board, its officers, and employees, be fully conversant in the historical injustices and inequalities that have shaped our society and to recognize and eliminate the institutional barriers, including racism and biases, that contribute to the pervasive, disparate educational outcomes within our schools. Equity and inclusive education aims to understand, identify, address, and eliminate the biases, barriers, and disparities that limit a student's chance to graduate high school prepared for college, for a career, and for life.

NL Policy #

0105b

The Superintendent or designee(s) will ensure that curriculum and instructional materials reflect the Board's commitment to educational equity. Curriculum and instructional materials for all grades shall reflect diversity and include a range of perspectives and experiences, particularly those of historically underrepresented groups. All curriculum materials shall be examined for bias. Class instructional activities and extracurricular programs shall be designed to provide opportunities for cross-cultural and cross-racial interactions that foster respect for diversity.

Equity and inclusive education is an ongoing process that requires shared commitment and leadership if a district is to meet the ever-evolving society, unique learning needs of all students, and diverse backgrounds of our communities and schools. The Board understands that equity and inclusive education is achieved when each adult collaborates and affirms each student by creating a respectful learning environment inclusive of actual or perceived personal characteristics.

Educational equity is based on the principles of fairness and ensuring that every student has access to the resources and educational rigor they need at the right moment in their education, despite any individual's actual or perceived personal characteristics, not to be used interchangeably with principles of equality, treating all students the same.

Inclusive education is based on the principles of acceptance and inclusion of all students. Students see themselves reflected in their curriculum, their physical surroundings and the broader environment, in which diversity is honored and all individuals are respected.

Diversity in education means students, staff, families and community are our greatest strength and diversity is viewed as an asset. Diversity means the condition of being different or having differences, including, but not limited to, sex, race, ethnicity, sexual orientation, gender, age, socioeconomic class, religion, and ability, and other human differences. Embracing these diversities and moving beyond tolerance and celebration to inclusivity and respect will help the district reach our goal of creating a community that ensures that each and every voice is heard and valued.

Accountability, Transparency and Review

The Board, its officers and employees, accepts responsibility and will hold themselves and each other accountable for every student having full access to quality education, qualified teachers, challenging curriculum, full opportunity to learn, and sufficient, individually-tailored support for learning so they can achieve at excellent levels in academic and other student outcomes. The district also accepts its responsibility for moving forward on this journey and to committing time, energy and resources to develop a more equitable, inclusive, and diverse welcoming environment for all students, parents and staff. To this end, the Superintendent will establish a district-wide Equity and Inclusivity committee in each school. Committees will include representation from staff, administration, students and parents. The district-wide task force and the school-level committee will assist the administration in

developing and implementing specific prevention initiatives, including the adoption and revision of policies and implementation of practices designed to promote diversity, prevent discrimination, assure equitable access to high quality educational staff, facilities and materials, and to maximize student achievement for all students. The accompanying exhibit provides more detail on the specific programs and strategies implemented by the district.

The Superintendent of Schools, or designee, will adopt goals and corresponding metrics related to this policy. The district will identify the multiple indicators necessary to monitor student outcomes, engagement, and school climate, and specific data that will be used to ensure accountability for student, school, and district-wide performance; to reduce variability in outcomes; and to ensure that academic outcomes will not be predictable by actual or perceived personal characteristics and can be assessed and reported transparently to the public. Reporting may include, but is not limited to, standardized test scores; referrals, suspension and expulsion reports; the percentage of students placed in Bilingual or English as a New Language (ENL), Advanced Placement and remedial classes; as well as employee, parent and student perceptions about school.

With committee input, the Superintendent of Schools is directed to develop and implement a plan for ensuring that equitable educational opportunities are being provided to all students. In addition, the Board directs that training programs be established for students, and annually for employees, to raise awareness of the issues surrounding cultural responsiveness, equity and inclusion and to implement preventative measures to help counteract biases and practices that perpetuate achievement disparities and lead to disproportionate levels of student success. Age-appropriate instructional materials will be incorporated into the curriculum to educate students so that they can learn from a diverse range of experiences and points of view. Curricular materials and staffing decisions will support these efforts.

The Board of Education and the Superintendent district will monitor and review the district's metrics and equity activities to determine the extent to which district schools are complying with this policy, the progress made toward attaining the goals of this policy, whether this policy is having a positive effect on improving academic opportunities for all students and increasing family engagement and reducing achievement gaps. The Superintendent will regularly report progress on the equity, inclusivity, and diversity plan and outcomes. Based on those results, this policy, and the specific objectives set to meet its goals, may be revised as needed.

Equity Policy Communication

To be successful in this endeavor, it is imperative that all members of the school community are aware of this policy, its purpose, procedures and the district's commitment to equity and inclusion by fostering a positive learning environment that embraces all diverse, unique and individual differences.

NL Policy #

0105d

The Superintendent, or designee(s), is directed to ensure that this policy is communicated to students, staff, and the community. This policy will be posted on the district's website, and will also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

Policy Enforcement

The Board directs the Superintendent or designee(s) to enforce this policy and create regulations and practices to implement this policy. The Board will annually review the district's implementation of this policy and take appropriate action to ensure compliance with and enforcement of this policy.

SEXUAL HARASSMENT

The Board of Education recognizes that harassment of students, employees (including all staff, applicants for employment, both paid and unpaid interns, exempt and non-exempt status, part-time, seasonal, and temporary workers, regardless of immigration status) and certain “non-employees” (which includes contractors, subcontractors, vendors, consultant and other persons providing services pursuant to a contract, or their employees) on the basis of sex, gender and/or sexual orientation is abusive and illegal behavior that harms targets and negatively impacts the school culture by creating an environment of fear, distrust, intimidation and intolerance. The Board further recognizes that preventing and remedying such harassment in schools is essential to ensure a healthy, nondiscriminatory environment in which students can learn and employees and “non-employees” can work productively.

Sexual harassment is a form of sex discrimination and is unlawful under federal, state, and (where applicable) local law. Sexual harassment includes harassment on the basis of actual or perceived or self-identified sex, sexual orientation, gender identity, gender expression, and transgender status.

Sexual harassment of a student can deny or limit the student’s ability to participate in or to receive benefits, services, or opportunities from the school’s program.

Sexual harassment includes unwelcome conduct which is either of a sexual nature, or which is directed at an individual because of that individual's sex, when:

- submission to that conduct is made either explicitly or implicitly a term or condition of an individual's employment or a student's education;
- submission to or rejection of such conduct is used as the basis for decisions affecting an individual’s employment or a student's education; or
- the conduct has the purpose or effect of unreasonably interfering with an employee's or "non-employee's" work or student's school performance or creating an intimidating, hostile or offensive work or educational environment, even if the complaining individual is not the intended target of the sexual harassment;

Sexual harassment can include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature, or verbal, nonverbal or physical aggression, intimidation or hostility that is based on actual or perceived gender and sexual stereotypes. Examples of sexual harassment can be found in the accompanying regulation (0110-R).

NL Policy #

0110b

SEXUAL HARASSMENT

The Board is committed to providing an educational and working environment that promotes respect, dignity and equality and that is free from all forms of sexual harassment. To this end, the Board condemns and strictly prohibits all forms of sexual harassment on school grounds, school buses and at all school-sponsored activities, programs and events, including those that take place at locations outside the district, or outside the school setting if the harassment impacts the individual's education or employment in a way that violates their legal rights, including when employees and "non-employees" travel on district business, or when harassment is done by electronic means (including on social media). For employees, sexual harassment is considered a form of employee misconduct. Sanctions will be enforced against all those who engage in sexual harassment, and against supervisory and managerial personnel who knowingly allow such behavior to continue or engage in retaliation.

Sexual harassment may subject the district to liability for harm done to targets. Harassers may also be individually subject to civil liability if sued in a court of law or criminal liability if prosecuted.

Under various state and federal laws, students, employees and "non-employees" have legal protections against sexual harassment in the school environment as described above. Those laws are listed in the references section. Additionally, local laws (e.g., county, city, town, village) may apply to the district. The district's Code of Conduct also addresses appropriate behavior in the school environment. Sexual harassment can occur between persons of all ages and genders.

In order for the Board to effectively enforce this policy and to take prompt corrective measures, it is essential that all targets of sexual harassment and persons with knowledge of sexual harassment report the harassment immediately. The district will promptly investigate all complaints of sexual harassment, either formal or informal, verbal or written. To the extent possible, all complaints will be treated in a confidential manner. Limited disclosure may be necessary to complete a thorough investigation. If the complainant reports that they feel unsafe at school due to the nature of the complaint, the district will determine if accommodations need to be made until the issue is resolved.

If, after appropriate investigation, the district finds that a student, an employee, "non-employee" or a third party has violated this policy, prompt corrective action will be taken in accordance with the applicable collective bargaining agreement, contract, district policy and state law. Individual nondisclosure agreements may only be used as permitted by law, described in the accompanying regulation. Mandatory arbitration clauses are prohibited in all district contracts and agreements.

NL Policy #

0110c

SEXUAL HARASSMENT

All complainants and those who participate in sexual harassment complaints or the investigation of a complaint of sexual harassment have the right to be free from retaliation of any kind, when they do so with a good faith belief that sexual harassment has occurred. Such prohibited retaliation can include, but is not limited to, discipline, discrimination, demotion, denial of privileges, or any action that would keep a person from coming forward to make or support a sexual harassment claim. Such actions need not be job- or education-related, or occur in the workplace or educational environment, to constitute unlawful retaliation.

The Superintendent of Schools is directed to develop and implement regulations for reporting, investigating and remedying allegations of sexual harassment. These regulations are to be attached to this policy. In addition, training programs shall be established for students, and annually for employees, to raise awareness of the issues surrounding sexual harassment and to implement preventative measures to help reduce incidents of sexual harassment. Age-appropriate instructional materials will be incorporated into the curriculum to educate students so that they can recognize and reduce the incidence of sexual harassment.

This policy shall be posted in a prominent place in each district facility, on the district's website, and shall also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

The school attorney shall annually review this policy's effectiveness and compliance with applicable state and federal law, and recommend revisions to Board.

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

The Board of Education is committed to providing an educational and working environment that promotes respect, dignity and equality. The Board recognizes that discrimination, such as harassment, hazing and bullying, are detrimental to student learning and achievement. These behaviors interfere with the mission of the district to educate its students and disrupt the operation of the schools. Such behavior affects not only the students who are its targets but also those individuals who participate and witness such acts.

To this end, the Board condemns and strictly prohibits all forms of discrimination, such as harassment, hazing and bullying on school grounds, school buses and at all school-sponsored activities, programs and events. Discrimination, harassment, hazing or bullying that takes place at locations outside of school grounds, such as cyberbullying, which creates or can be reasonably expected to create a material and substantial interference with the requirements of appropriate discipline in the operation of the school or impinge on the rights of other students are prohibited, and may be subject to disciplinary consequences.

Definitions:

Bullying

Bullying, under the amended Dignity for All Students Act, has the same meaning as harassment (see below). The accompanying regulation provides more guidance regarding the definition and characteristics of bullying to help the school community recognize the behavior.

Cyberbullying

Cyberbullying is defined as harassment (see below) through any form of electronic communication.

Discrimination

Discrimination is the act of denying rights, benefits, justice, equitable treatment or access to facilities available to all others, to an individual or group of people because of the group, class or category to which that person belongs (as enumerated in the *Definitions* section, under Harassment, below).

Hazing

Hazing is an induction, initiation or membership process involving harassment which produces public humiliation, physical or emotional discomfort, bodily injury or public ridicule or creates a situation where public humiliation, physical or emotional discomfort, bodily injury or public ridicule is likely to occur.

NL Policy #

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

Harassment

Harassment has been defined in various ways in federal and state law and regulation. The Board recognizes that these definitions are important standards, but the Board's goal is to prevent misbehavior from escalating in order to promote a positive school environment and to limit liability. The Dignity for All Students Act (§§10-18 of Education Law) defines harassment as the creation of a hostile environment by conduct or by threats, intimidation or abuse, including cyberbullying, that (a) has or would have the effect of unreasonably and substantially interfering with a student's educational performance, opportunities or benefits, or mental, emotional or physical well-being; (b) reasonably causes or would reasonably be expected to cause a student to fear for his or her physical safety; (c) reasonably causes or would reasonably be expected to cause physical injury or emotional harm to a student; or (d) occurs off school property and creates or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property. The harassing behavior may be based on any characteristic, including but not limited to a person's actual or perceived:

- race,
- color,
- weight,
- national origin,
- ethnic group,
- religion,
- religious practice,
- disability,
- sex,
- sexual orientation, or
- gender (including gender identity and expression).

For the purpose of this definition the term "threats, intimidation or abuse" shall include verbal and non-verbal actions.

In some instances, bullying or harassment may constitute a violation of an individual's civil rights. The district is mindful of its responsibilities under the law and in accordance with district policy regarding civil rights protections.

In order to streamline the wording of this policy and regulation the term bullying will be used throughout to encompass harassment, intimidation, cyberbullying and hazing behaviors.

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

Prevention

The school setting provides an opportunity to teach children, and emphasize among staff, that cooperation with and respect for others is a key district value. A program geared to prevention is designed to not only decrease incidents of bullying but to help students build more supportive relationships with one another by integrating the bullying prevention program into classroom instruction. Staff members and students will be sensitized, through district-wide professional development and instruction, to the warning signs of bullying, as well as to their responsibility to become actively involved in the prevention of bullying before overt acts occur.

Curricular material that raises awareness and sensitivity to discrimination or harassment and civility in the relationships of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, sexes or gender expression or identities will be included in the instructional program K-12.

In order to implement this program the Board will designate at its annual organizational meeting a Dignity Act Coordinator (DAC)] for each school in the district. One of the DAC's will be designated as the district-wide coordinator whose responsibilities are described in the accompanying regulation. The role of each DAC is to oversee and enforce this policy in the school to which they are assigned.

In addition, the Superintendent will establish a district-wide Health and Safety Committee in each school that will be overseen by the district-wide Superintendent. Committees will include representation from staff, administration, students and parents. The district-wide committee and the school-level committee will assist the administration in developing and implementing specific prevention initiatives, including early identification of bullying and other strategies. In addition, the program will include reporting, investigating, remedying and tracking allegations of bullying. The accompanying regulation provides more detail on the specific programs and strategies implemented by the district.

Intervention

Intervention by adults and bystanders is an important step in preventing escalation and resolving issues at the earliest stages. Intervention will emphasize education and skill-building.

Successful intervention may involve remediation. Remedial responses to bullying include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target. Remediation may be targeted to the individual(s) involved in the bullying behavior or environmental approaches which are targeted to the school or district as a whole.

NL Policy

0115d

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

In addition, intervention will focus upon the safety of the target. Staff is expected, when aware of bullying, to report it in accordance with this policy, refer the student to designated resources for assistance, or to intervene in accordance with this policy and regulation.

Provisions for students who do not feel safe at school

The Board acknowledges that, notwithstanding actions taken by district staff, intervention may require a specific coordinated approach if the child does not feel safe at school. Students who do not feel safe at school are limited in their capacity to learn and reach their academic potential. Staff, when aware of bullying, should determine if accommodations are needed in order to help ensure the safety of the student and bring this to the attention of the building principal. The building principal, other appropriate staff, the student and the student's parent will work together to define and implement any needed accommodations.

The district recognizes that there is a need to balance accommodations which enhance student safety against the potential to further stigmatize the targeted student. Therefore, each case will be handled individually. The student, parent/guardian, and school administration will collaborate to establish safety provisions that best meet the needs of the targeted student. Follow-up discussion and/or meetings will be scheduled, as needed, to ensure that safety concerns have been adequately addressed and to determine when and if accommodations need to be changed or discontinued.

Incident Reporting and Investigation

Although it can be difficult to step forward, the district can't effectively address bullying if incidents are not reported. Students who have been bullied, parents whose children have been bullied or other students who observe bullying behavior are encouraged and expected to make a verbal and/or written complaint to any school personnel in accordance with the training and guidelines provided. Staff who observe or learn of incident(s) of bullying are required, in accordance with State law, to make an oral report to the building principal within one school day and to fill out the district reporting form within two school days. If a staff person is unsure of the reporting procedure, he/she is expected to inquire about how to proceed by speaking with his/her supervisor. A district employee may be deemed to have permitted unlawful discrimination or harassment if he/she fails to report an observed incident, whether or not the target complains.

At all times, complaints will be documented, tracked and handled in accordance with the regulations and procedures accompanying this policy, or, if applicable, **[0100, Equal Opportunity and Nondiscrimination, or 0110, Sexual Harassment]** in the district's Code of Conduct.. The DAC or building principal will prepare an annual report for the Superintendent based on complaints filed.

NL Policy #

0115e

STUDENT HARASSMENT AND BULLYING PREVENTION AND INTERVENTION

An equitable and thorough investigation will be carried out by the DAC or building principal in accordance with the accompanying regulation. In addition, the results of the investigation shall be reported back to both the target and the accused as specified in the accompanying regulation. If either of the parties disagrees with the results of the investigation, they can appeal the findings in accordance with the regulations that accompany this policy. Verified bullying incidents that meet the criteria established by the state will be included in the statewide reporting system when applicable, in accordance with law and regulation. The Board will receive the annual VADIR report, as well as any other state-required report relevant to bullying and/or school climate, for each building and for the district as whole. Based on the review of the data, the Board may consider further action, including but not limited to modification of this policy and additional training.

Disciplinary Consequences/Remediation

While the focus of this policy is on prevention, acts of bullying may still occur. In these cases, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive in-school guidance in making positive choices in their relationships with others. If appropriate, disciplinary action that is measured, balanced and age-appropriate will be taken by the administration in accordance with the district's Code of Conduct, as applicable. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

Consequences for a student who commits an act of bullying shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors, and must be consistent with the district's Code of Conduct.

Non-Retaliation

All complainants and those who participate in the investigation of a complaint in conformity with state law and district policies, who have acted reasonably and in good faith, have the right to be free from retaliation of any kind.

Training

The Board recognizes that in order to implement an effective bullying prevention and intervention program, professional development is needed. The Superintendent and the District Professional Development Team will incorporate training to support this program in new teacher orientation and the annual professional development plan, as needed. Training opportunities will be provided for all staff, including but not limited to bus drivers, cafeteria and hall monitors and all staff who have contact with students. The DACs will be trained in accordance with state requirements and will continue their professional development so as to successfully support this policy and program.

Each year, as part of the annual review of the Code of Conduct, this policy will be reviewed to assess its effectiveness and compliance with state and federal law. If changes are needed, revisions will be recommended to the Board for its consideration.

The Board further recognizes the privacy rights of students diagnosed with HIV infection or AIDS and their right to a free appropriate public education; the rights of HIV infected employees to privacy and reasonable accommodations; the rights of all non-infected individuals to a safe environment free of any significant risks to their health; and the rights of all students to instruction regarding the nature, transmission, prevention, and treatment of HIV infection, pursuant to the Commissioner's Regulation, Part 135.3.

No individual shall be denied access to any program or activity sponsored by or conducted on the grounds of the district, solely on the basis of his/her status as an HIV-infected individual.

A student who is infected with HIV shall be referred to the Committee on Special Education (CSE) only when the student's disability interferes with his/her ability to benefit from instruction. Such referral shall be made in accordance with Part 200 of Commissioner's Regulations.
3. If a student who is HIV-infected requires special accommodations to enable him/her to continue to attend school, the student shall be referred to the appropriate multi-disciplinary team as required by §504 of the Rehabilitation Act.
4. No disclosure of HIV-related information involving a student shall be made without first obtaining the informed consent of the parent, guardian or student on the Department of Health (DOH) approved form.

SCHOOL DISTRICT RECORDS

It is the policy of the Board of Education to inform members of the public about the administration and operation of the public schools in accordance with the Freedom of Information Law (FOIL) of the State of New York.

The Superintendent of Schools shall develop regulations ensuring compliance with the Freedom of Information Law and setting forth the procedures to be followed to obtain access to district records. The Superintendent shall designate, with Board approval, a Records Access and Records Management Officer, pursuant to law.

Retention and Destruction of Records

The Board hereby adopts the Records Retention and Disposition Schedule ED-1 issued pursuant to Article 57-A of the Arts and Cultural Affairs Law, which contains the legal minimum retention periods for district records. In accordance with Article 57-A, the district will dispose of only those records described in the schedule after they have met the minimum retention periods set forth in the schedule. PUBLIC COMMENT AT MEETINGS

The Board of Education encourages public comment on school related matters at Board meetings, as outlined in this policy. To allow members of the public to address the Board, a period not to exceed 30 minutes will be set aside during the first part of each Board meeting for public comment, with priority given to comments on items on the meeting's agenda. A second 30-minute time period will be set aside at the end of each Board meeting for public comment on matters pertaining to the district but not on the agenda. These periods may be extended by a majority vote of the Board. The Board President may limit the number of repetitive comments to keep within time limit for the public comment period.

Persons wishing to address the Board will advise the board President within a reasonable time prior to the start of the public comment period of the meeting. The request will be made in writing on a form provided by the district. To maintain a first come, first served process, the district will utilize a number system or request that speakers form a line. For purposes of following up with speakers later, the district may request the speaker's preferred contact information such as home address, telephone number, or email address, or speak with them in person. To limit comments to matters which may be properly discussed in public session, the board will request a brief description of the topic to be addressed. Any group or organization wishing to address the Board must identify a single spokesperson. The Board President may limit the number of repetitive comments to keep within time limit for the public comment period.

Presentation should be as brief as possible. No speaker will be permitted to speak for longer than three minutes. Speakers may not give unused time to other speakers. Speakers may comment on (1) any matter related to district business; (2) any agenda item; or (3) matters related to agenda items specifically or district matters generally, depending on the public comment section.

The Board will not permit in public session discussion involving individual district personnel or students. Persons wishing to discuss matters involving individual district personnel or students should present their comments and/or concerns to the Superintendent during regular business hours.

All speakers and observers are to conduct themselves in a civil manner. Obscene language defamatory statements, threats of violence, statements advocating racial, religious, or other forms of prejudice will not be tolerated.

Persons making presentations at a Board meeting will address remarks to the President and may direct questions or comments to Board members or other district officials only upon the approval of the

President. Board members and the Superintendent have the privilege of asking questions of any person who addresses the Board, but commenters should not expect to engage in discussion with the Board. However, the Board may correct comments that are not accurate, and may refer to an existing policy when it answers a question.

Questions and comments from the public concerning matters which are not on the agenda will be taken under consideration and referred to the Superintendent for appropriate action. Persons wishing to have matters included on the agenda will contact the Superintendent in accordance with Policy 2342, Agenda Preparation and Dissemination.

The President will be responsible for the orderly conduct of the meeting and will rule on such matters as the time to be allowed for public discussion and the appropriateness of the subject being presented, as outlined in this policy and applicable provisions of law and regulation, and subject to the Board's parliamentary procedure. If there is disagreement about whether a speaker's topic falls within the topics permitted for public comment, the whole board will vote on the issue.

The President will remind speakers whose presentations are inconsistent with this policy of the rules for public comment. For speakers that continue to violate this policy, the President may discontinue the presentation or call for a brief recess of the meeting. The President may order the removal of speakers from the speakers' area, or from the meeting in general, or may close the public comment period.

For members of the public who are unwilling or unable to speak during public comment periods, including when these periods are closed, they may submit comments to the Board in writing, to the following address 14665 State Route 22, New Lebanon, NY 12125. Complaints from the public are addressed in Board policy 1400.

All individuals at Board meetings are expected to abide by the rules for Public Conduct on School Property as set forth in the district's Code of Conduct. At board meetings, speakers and observers may not engage in behavior that disrupts the meeting, such as shouting, interrupting others, blocking the free movement of others, or obstructing the views of others. In the event of such disruption, the President will remind those in attendance of the rules under this policy. Any Board member may request a brief recess of the meeting. The President may order the removal of those who are a threat to the safety of others or who disrupt the orderly conduct of the meeting. If appropriate, law enforcement may be called to remove disruptive individuals.

PARENT AND FAMILY ENGAGEMENT

The Board of Education believes that positive parent and family engagement is essential to student achievement, and thus encourages such involvement in school educational planning and operations. Parent and family engagement may take place either in the classroom or during extra-curricular activities. However, the Board also encourages parent and family engagement at home (e.g., planned home reading time, informal learning activities, and/or homework “contracts” between parents, family members and children). The Board directs the Superintendent of Schools to develop a home-school communications program in an effort to encourage all forms of parent and family engagement. The superintendent will develop regulations defining protocols for publishing items on the district website and social media platforms.

Title I Parent and Family Engagement- District Level Policy

Consistent with the parent and family engagement goals of Title I, Part A of the federal No Child Left Behind Act of 2001 (NCLB) and its reauthorization in the Every Student Succeeds Act (ESSA), the Board of Education will develop and implement programs, activities and procedures that encourage and support the participation of parents and family members of students eligible for Title I services in all aspects of their child’s education. The Board also will ensure that all of its schools receiving Title I, Part A funds develop and implement school level parent and family engagement procedures, as further required by federal law.

For purposes of this policy, parental involvement refers to the participation of parents in regular, two-way, and meaningful communication, involving student academic learning and other school activities.

At a minimum, parent and family engagement programs, activities and procedures at both the district and individual school level must ensure that parents and family members:

- Play an integral role in assisting their child’s learning;
- Are encouraged to be actively involved in their child’s education at school; and
- Are full partners in their child’s education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child.

The federal definition of the term “parents” refers to a natural parent, legal guardian or other person standing in *loco parentis* (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the child’s welfare).

NL Policy #

1900b

District and school level Title I parent and family engagement programs, activities and procedures will provide opportunities for the informed participation of parents and family members (including those

PARENT AND FAMILY ENGAGEMENT

who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children).

As further required by federal law, parents and family members of students eligible for Title I services will be provided an opportunity to participate in the development of the district's Title I plan, and to submit comments regarding any aspect of the plan that is not satisfactory to them. Their comments will be forwarded with the plan to the State Education Department.

Parents and family members also will participate in the process for developing either a comprehensive or targeted "support and ~~school~~ improvement plan" when the school their child attends is identified by the State as needing this plan.

Parent and family member participation in development of district wide Title I plan

The Board, along with its superintendent of schools and other appropriate district staff will undertake the following actions to ensure parent and family member involvement in the development of the district wide Title I plan:

Development of school level parent and family engagement approaches

The superintendent of schools will ensure that all district schools receiving federal financial assistance under Title I, Part A are provided coordination, technical assistance and all other support necessary to assist them in planning and implementing effective parent and family engagement programs and activities that improve student achievement and school performance. As appropriate to meet individual local needs, the superintendent will:

- hold meetings at flexible times and/or in highly accessible places
- survey parents by phone, mail, or e-mail
- Engage in meaningful consultation with a communications specialist to effectively engage parents and family members in education

Building capacity for parental involvement

NL Policy #

1900c

To build parent capacity for strong parental involvement to improve their child's academic achievement, the district and its Title I, Part A schools will, at a minimum:

PARENT AND FAMILY ENGAGEMENT

1. Assist parents in understanding such topics as the state's academic content challenging academic standards, state and local academic assessments, Title I requirements, how to monitor their child's progress and how to work with educators to improve the achievement of their child. To achieve this objective, the district and its Title I schools will provide materials and information

2. Provide materials and training to help parents work to improve their child's academic achievement such as literacy training and using technology (including education about the harms of copyright piracy). To achieve this objective, the district and its Title I schools will:

- provide literacy activities that bond families around reading and using the public library
- provide information about the essential components of reading or math instruction to enable parents to support the instructional practices used by the teacher
- provide multiple modes of communication with teachers
- review information posted about schools in improvement, supplemental educational services, and other opportunities to promote student achievement

3. Educate its teachers, specialized instructional support personnel, principals and other school leaders, and other staff, with the assistance of parents, in understanding the value and utility of a parent's contributions and on how to:

SCHOOL BOARD LEGAL STATUS

The Board of Education is a seven-member Board elected by district residents. Each member of the Board serves for three years. The terms of office of Board members shall not all expire in the same year. Board members are responsible for school district management and policy-making.

The legal status of the Board is that of a corporate body established pursuant to the laws of New York State. Any liability of the district is a liability of the Board of Education as a corporation and not that of the members of the Board as individuals.

The Board will not be bound in any way by any individual's statement or action unless the Board, through an adopted policy or by a majority vote of Board membership, has delegated this authority to the individual member.

The Board is entrusted with the responsibility of developing policies under which the district is managed. In addition, the Board has all the powers and duties stated in the Education Law and other applicable New York State law.

Complete and final authority on all district educational matters, except as restricted by law, will be vested in the Board.

CODE OF ETHICS FOR BOARD MEMBERS AND EMPLOYEES

The Board of Education is committed to avoiding any situation in which the existence of conflicting interests of any Board member, officer or employee may call into question the integrity of the management or operation of the school district. The Board recognizes that sound, ethical standards of conduct serve to increase the effectiveness of district officers and staff as educators and public employees in the community. Adherence to a code of ethics promotes public confidence in the schools and furthers the attainment of district goals.

The Board also recognizes its obligation to adopt a code of ethics setting forth the standards of conduct required of all Board members, district officers and employees under the provisions of the General Municipal Law. Therefore, every Board member, officer and employee of the district, whether paid or unpaid, shall adhere to the following code of ethics.

Statutory Conflicts of Interest

It is a conflict of interest for a Board member, officer or employee to benefit personally from contracts made in their official capacity.

- “**Contract**” is defined broadly to include any claim or demand against the district or account or agreement with the district, whether expressed or implied which exceeds the sum of \$750.00 in any fiscal year.
- An “**interest**” is defined as a direct or indirect benefit that runs to the employee as a result of a contract with the district.

No Board member, officer or employee shall have an “**interest**” (i.e., receive a direct or indirect benefit as the result of a contract with the district) in:

1. a firm, partnership or association in which he/she is a member or employee;
 2. a corporation in which he/she is an officer, director or employee;
 3. a corporation in which he/she, directly or indirectly, owns or controls 5% or more of the stock;
 4. a contract between the district and his/her spouse, minor child or dependents, except for an employment contract between the school district, a spouse, minor child or dependent of a Board member authorized by §800(3) of the General Municipal Law or §3016 of the Education Law.
-
1. Gifts: A Board member, officer or employee shall not directly or indirectly solicit any gift or accept or receive any gift having a value in excess of \$75 or more, whether in the form of money, services, loan, travel, entertainment, hospitality, thing or promise, or any other form, under circumstances in which it could reasonably be inferred that the gift was intended to

However, the Board welcomes and encourages the writing of letters or notes expressing gratitude or appreciation to staff members. Gifts from children that are principally sentimental in nature and of insignificant financial value may be accepted in the spirit in which they are given.

2. Confidential information: A Board member, officer or employee shall not disclose confidential information acquired by him or her in the course of his or her official duties or use such information to further his or her personal interest. This includes matters discussed in a properly convened executive session. However, the Board, acting as a whole, may decide to disclose such information where disclosure is not prohibited under the law. Additionally, disclosure of such information is not prohibited where it is warranted to appropriate law enforcement entities for investigation and possible action, or where a board member is compelled to reveal the information in a court case.
3. Representation before the Board or District: A Board member, officer or employee shall not receive or enter into any agreement, expressed or implied, for compensation for services to be rendered in relation to any matter before the school district.
4. Such disclosure must be in writing and made part of the official record of the school district. Disclosure is not required in the case of an interest that is exempted under Section 803(2) of the General Municipal Law. The term “interest” means a pecuniary or material benefit accruing to an officer or employee.
5. Investments in conflict with official duties: A Board member, officer or employee shall not invest or hold any investment directly in any financial, business, commercial or other private transaction that creates a conflict with his or her official duties. Exceptions to the conflict of interest law can be found in Section 802 of the General Municipal Law (see 2160-E.1).
6. Private employment: A Board member, officer or employee shall not engage in, solicit, negotiate for or promise to accept private employment when that employment or service creates a conflict with or impairs the proper discharge of his or her official duties.

In addition, the Superintendent shall ensure that a copy of Article 18 of the General Municipal Law shall be kept posted in each public building under the district's jurisdiction in a place conspicuous to the district's officers and employees.

Penalties

In addition to any penalty contained in any other provision of law, any person who shall knowingly and intentionally violate any of the provisions of the Board's code of ethics and its accompanying regulation may be fined, suspended or removed from office or employment, as the case may be, in the manner provided by law.

School district staff will take steps to locate, identify, evaluate and maintain information about all children with disabilities within the district, including homeless children and children who are wards of the state, and children attending nonpublic school within the district (including religious schools), who are in need of special education.
3. The district will establish a plan and practice for implementing school-wide approaches and interventions in order to remediate a student's performance prior to referral for special education services. The district will provide general education support services, instructional modifications, and/or alternative program options to address a student's performance before referring the student to the Committee on Special Education (CSE). The Child Study Team will develop, implement and evaluate pre-referral intervention strategies (4321.2, School-wide Pre-referral Approaches and Interventions).
4. School district staff will initiate a request for evaluation of a student who has not made adequate progress after an appropriate period of time when provided instruction under a response to intervention program. In making the request the staff person will describe in writing intervention services, programs and methodologies used to remediate the student's performance prior to referral. In addition, the extent of parental contact will be described as well.
5. The Board will appoint a committee on special education (CSE), and, as appropriate, CSE subcommittees, to assure the timely identification, evaluation and placement of eligible students with disabilities.
6. The Board will arrange for special education programs and services based upon the recommendation of the CSE or CSE subcommittee.

PROGRAMS FOR STUDENTS WITH DISABILITIES UNDER THE IDEA AND NEW YORK'S EDUCATION LAW ARTICLE 89

7. The Superintendent shall establish a plan for the recruitment, hiring and retention of staff appropriately and adequately prepared to meet the needs of students with disabilities including, but not limited to, highly qualified special education teachers.
8. The Superintendent shall establish a comprehensive professional development plan designed to ensure that personnel necessary to carry out IDEA and Article 89 possess the skills and knowledge required to meet the needs of students with disabilities.
9. The Superintendent will establish a process for ensuring that district staff understand the right of students with disabilities to access and participate in the same academic, cocurricular and extracurricular programs and activities as all other students enrolled in the district's public schools, to the maximum extent appropriate to their individual needs.

Locate and Identify Students with Disabilities

The district will conduct an annual census to locate and identify all students with disabilities who reside in the district, and establish a register of such students who are entitled to attend the public schools of the district during the next school year, including students with disabilities who are homeless or wards of the State. The census shall be conducted, and the registry maintained, in accordance with the requirements established in Commissioner's regulations.

The Superintendent will determine what other activities might be appropriate to help locate and identify students with disabilities. These may include, but are not limited to, the mailing of letters to all district residents regarding the availability of special education programs and services and their right to access such services, and/or the publication of a similar notice in school newsletters and other publications.

(Refer to policy 4321.10, Programs and Services for Parentally-placed Nonpublic School Students with Disabilities under the IDEA and New York's Education Law Article 89, for more information regarding how to locate and identify nonpublic school students with disabilities).

Evaluation of Students with Disabilities

To initially determine a student's eligibility for a free appropriate public education under the IDEA and Article 89, the district will conduct a full evaluation of the student in accordance within legally prescribed time lines. As set forth in Commissioner's regulations, the initial evaluation will include, at least, a physical examination, an individual psychological evaluation unless the school psychologist determines it unnecessary, a social history, an observation of the student in the student's learning environment to document the student's academic performance and behavior in the areas of difficulty, and other appropriate assessments or evaluations (including a functional behavioral assessment for a student whose behavior impedes his or her learning or that of others) to ascertain the physical, mental, behavioral and emotional factors that contribute to the suspected disabilities.

NL Policy

4321d

PROGRAMS FOR STUDENTS WITH DISABILITIES UNDER THE IDEA AND NEW YORK'S EDUCATION LAW ARTICLE 89

Once a student has been determined eligible to receive a free appropriate public education, the district will reevaluate the student with a disability whenever the student's parent requests a reevaluation, and when the district determines the educational and related service needs (including improved academic achievement and functional performance) of the child warrant a reevaluation. However, a reevaluation must take place at least once every three years, unless the student's parent and the district agree it is unnecessary.

Parental Consent for Student Evaluations

Before conducting any type of evaluation, district staff will take steps to obtain written informed consent from a student's parent, as required by applicable law and regulations. They also will keep a detailed record of those attempts and their results, including phone calls and correspondence, visits to the parent's home and any responses received.

1. If a parent refuses to give consent for an initial evaluation, or fails to respond to such a request, the parent will be given an opportunity to attend an informal conference and ask questions about the proposed evaluation. Unless the referral for evaluation is withdrawn, if the parent continues to withhold consent, the Board will commence due process proceedings to conduct an initial evaluation without parental consent within the time lines established in Commissioner's regulations.
2. If a parent refuses to give consent for a reevaluation, or fails to respond to such a request, district staff will proceed with the reevaluation without parental consent if it has engaged in documented reasonable efforts to obtain such consent and the parent has failed to respond. If the district cannot document its efforts to obtain consent, the Board will commence due process proceedings to conduct a reevaluation without parental consent.
3. If district staff is unable to obtain consent for the initial evaluation or reevaluation of a home schooled or a parentally-placed nonpublic school student, the Board will not commence due process proceedings to conduct the evaluation without parental consent, and will consider the student as not eligible for special education.

Conduct of Evaluations

In conducting evaluations of students with disabilities, the district will use a variety of assessment tools and strategies, including parent-provided information, to gather relevant functional, developmental, and academic information for determining a student's eligibility for special education and related services, and the content of the student's individualized education program or individualized education services program or services plan in the case of nonpublic school students with disabilities (including information related to enabling the student to be involved in and progress in the general education curriculum).

NL Policy

4321e

The district also will assess a student in all areas of suspected disability, and the assessment and other evaluation used will not be discriminatory on a racial or cultural basis. In addition, students will be assessed in the language and form most likely to yield accurate information on what the student actually knows and can do academically, developmentally, and functionally, unless it is not feasible to do so.

In the case of students suspected of having a specific learning disability, the district will follow the procedures established in commissioner's regulations.

The district will notify a student's parent of any determination that no additional data is needed and the reasons for such a determination. It will also inform the parent of his or her right to request an assessment, notwithstanding that determination.

Eligibility Determination

The CSE or CSE subcommittee will determine whether a student is eligible for special education and related services under the IDEA and Article 89, as well as the student's educational needs.

The CSE or CSE subcommittee may not determine that a student is eligible for special education and related services if the determining factor is lack of appropriate instruction in the essential components of reading, including phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills), and reading comprehension strategies; or lack of appropriate instruction in math; or limited English proficiency.

Committee on Special Education

The members of the CSE and CSE subcommittees will include those individuals identified in applicable law and regulations, and their attendance at CSE and CSE subcommittee meetings will be required except as otherwise provided in law and regulations.

The parent of a student with disabilities is one of the mandated CSE and CSE subcommittee members and as such has a right to participate in CSE and CSE subcommittee meetings concerning the identification, evaluation, educational placement, and the provision of a free appropriate public education to their child. District staff will take steps to ensure the parent's participation, in accordance with the following:

1. CSE and CSE subcommittee meetings will be scheduled at a time and place that is mutually agreeable to the parent and the district.
2. The parent will be given at least five days notice of the time and place of a CSE or CSE subcommittee meeting, except as otherwise provided in law and regulation, along with notice of the purpose of the meeting, those who will attend (including name and title), and the

3. parent's right to be accompanied to the meeting by person(s) the parent considers to have knowledge and special expertise about their child.
4. The parent and the district may agree to use alternative means of participation at CSE meetings, such as videoconferences or telephone conference calls.
5. District staff will take any action necessary to ensure that the parent understands the proceedings at CSE meetings, including arranging for an interpreter for deaf parents or parents whose native language is other than English.

The CSE or CSE subcommittee may meet without a student's parent only if district staff has been unable to obtain either parent's participation, and has a record of its attempts to arrange a mutually agreed upon time and place. Similarly, the CSE or CSE subcommittee may make a decision without the involvement of the student's parent only if district staff has been unable to obtain parental participation, even through the use of alternative means of participation, and has a record of its attempts to ensure parental involvement.

Provision of Services

The Board will arrange for appropriate special education and related services recommended by the CSE or CSE subcommittee within 60 school days of the district's receipt of parental consent to evaluate a student not previously identified as a student with a disability, or within 60 school days of referral for review of a student with a disability, except as otherwise provided in law and regulations.

All staff responsible for the implementation of a student's individualized education program, or an individualized education services program or services plan in the case of parentally placed nonpublic school students with disabilities, will be provided information regarding those responsibilities (Refer to policy 4321.5 for more information on this topic).

Parental Consent for the Provision of Services

The Board acknowledges that parental consent for initial evaluation does not constitute consent for placement for the provision of special education and related services. Therefore, district staff will take steps to obtain written informed consent for the initial provision of special education and related services to an eligible student. The Board will be precluded by applicable law and regulations from commencing due process proceedings to override the parent's refusal to provide such consent or override the parent's failure to respond to such a request.

Transition Service and Diploma/Credential Options

NL Policy #

In accordance with law and regulation, the Board will ensure the provision of transition services, which are a coordinated set of activities for students with disabilities that facilitates movement from school to post-school activities, which may include but are not limited to post-secondary education,

vocational education, integrated employment, continuing and adult education, adult services, independent living or community participation. At age 15, or younger if appropriate, the student's IEP will include a statement of transition service needs and will include undertaking activities in the following areas:

- Instruction
- Related services
- Community experiences
- The development of employment and other post-school adult living objectives; and
- When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

In developing the plan for transition services, students and parents will be made aware of the range of diploma and credential options available and the requirements associated with each option.

PROVISION OF SPECIAL EDUCATION SERVICES IN THE LEAST RESTRICTIVE ENVIRONMENT

The Board of Education recognizes its responsibility to ensure that students with disabilities eligible for special education programs and services under the IDEA and Article 89 of New York's Education Law receive those services in the least restrictive environment appropriate to meet their individual educational needs.

Therefore, the district will not place students with disabilities in special classes or separate schools, or otherwise remove them from the regular educational environment unless the nature or severity of their disability is such that their education cannot be achieved satisfactorily in regular classes, even with the use of supplementary aids and services. In addition, the district will provide special services or programs to enable students with disabilities to be involved in and progress in the general curriculum, to the extent appropriate to their needs.

To fulfill its responsibility to educate students with disabilities in the least restrictive environment, the district will implement the provisions of section 200.6 of commissioner's regulations.

Furthermore, and pursuant to those provisions, students with disabilities placed together for purposes of receiving special education will be grouped by similarity of individual needs including their range of academic achievement, functional performance and learning characteristics; social and physical development, and management needs.

The Superintendent will establish a process for ensuring that the CSE or CSE subcommittee Chairperson, as appropriate, obtains an up-to-date copy of those provisions at the beginning of each school year, and copies of any amendments that become effective during the school year.

The Board also recognizes that the least restrictive environment requirements established by applicable law and regulations also extend to nonacademic settings. Therefore, the district will provide students with disabilities the opportunity to participate with non-disabled students in school-sponsored cocurricular and extracurricular activities, to the maximum extent appropriate to each individual student's needs. The district also will provide students with disabilities with supplementary aids and services the CSE or CSE subcommittee, as applicable, determines to be appropriate and necessary for the students to participate in such activities.

PUBLIC REPORT ON REVISIONS TO DISTRICT POLICIES, PRACTICES AND PROCEDURES UPON A FINDING OF SIGNIFICANT DISPROPORTIONALITY

The Board of Education recognizes that, despite the district's best efforts, there may be times when there might be a disproportionate representation of racial and ethnic groups in its special education programs and services, and/or with respect to the suspension of students with disabilities. To minimize the risk of such an occurrence, the Board has endeavored to adopt policies, practices and procedures for the district that are consistent with the IDEA and Article 89 of New York's Education Law, and their implementing regulations.

Nonetheless, upon learning of a significant disproportionality either in the suspension, identification, classification and/or placement of the district's students with disabilities, the Board will immediately review the district's policies, practices and procedures to determine whether they are fully compliant with the requirements of the IDEA and Article 89, or require revisions. If changes are needed, the Board will take immediate steps to adopt and implement any and all necessary revisions.

The Board will inform the public of any revisions to the district's policies, practices and procedures undertaken as a result of a finding of significant disproportionality. The Superintendent will notify school personnel responsible for implementing the revisions.

SPECIAL EDUCATION PERSONNEL

The Board acknowledges its responsibility to recruit, hire, train and retain highly qualified personnel, as defined in the federal Individuals with Disabilities Education Act (IDEA) and its accompanying regulations and in Article 89 of New York State Education law and its accompanying regulations, to provide special education programs and services. In addition, the Board is committed to appointing appropriately qualified personnel to the Committee (and subcommittee) on Special Education (CSE) and Committee (and subcommittee) on Preschool Special Education (CPSE).

The Board will fulfill its obligation with regard to special education personnel by taking measurable steps including, but not limited to the following:

1. Actively recruit personnel who possess prior experience working with students with disabilities.
2. Solicit resumes from graduates of institutions of higher education that offer programs in special education.
3. Seek candidates for teaching positions who are dually certified, to the extent possible.
4. Ensure that every member of the professional staff participates in annual professional performance reviews and professional development plans.
5. Provide appropriate on-going training and professional development to CSE and CPSE members, and other special education program and service providers to ensure their continuing awareness of their obligations and responsibilities under the law.

The Superintendent is responsible for ensuring that the professional staff is appropriately certified, licensed and trained and that they meet the “highly qualified” standard established in federal and state law. In the event that highly qualified individuals are not available, despite the best efforts of the administration, the Board recognizes its responsibilities to meet the alternative standards established by the State Education Department. Upon request, the Superintendent shall prepare a report to the Board which provides information about the certifications and qualifications of the special education professional personnel, as well as a summary of the professional development opportunities offered.

SCHOOL-WIDE PRE-REFERRAL APPROACHES AND INTERVENTIONS

The Board of Education recognizes that the provision of academic and behavioral supports and targeted interventions for students who are not making academic progress at expected levels in the general curriculum may improve a student's performance, and help avert the need for referral for possible classification as a student with a disability. Therefore, the district will implement on a school-wide basis practices appropriate to enable all of the district's students to succeed in the general education environment.

The Superintendent will identify and take steps to implement a variety of practices appropriate to comply with this policy. Consistent with applicable law and regulation, those practices may include, for example:

1. Providing early intervention services with funds available under the IDEA and which may be coordinated with similar activities conducted under the Elementary and Secondary Education Act. Such services would be made available to students not currently identified as needing special education and related services, but who need additional support to succeed in a general education setting. This may include professional development that enables teachers and other staff to deliver scientifically based academic instruction and behavioral interventions, such as scientifically based literacy instruction and, where appropriate, instruction on the use of adaptive and instructional software. It also may include educational and behavioral evaluations, services and supports.
2. Implementation of a response to intervention (RTI) program that includes the minimum requirements established by commissioner's regulations, and allows teachers and other staff to determine whether a student responds to scientific, research-based instruction or requires interventions beyond those provided to all students in the general education classroom.
3. Implementation of a positive behavioral intervention and support (PBIS) system that reduces school and classroom behavioral problems, and creates and maintains a safe and positive learning environment by promoting positive behavior in all students.

District implementation of any of the above practices will not impede or delay the appropriate evaluation of a student suspected of having a disability, and the student's right to a free appropriate public education.

AVAILABILITY OF ALTERNATIVE FORMAT INSTRUCTIONAL MATERIALS FOR STUDENTS WITH DISABILITIES

The Board of Education recognizes its responsibility to ensure that all the instructional materials used in the district's schools are made available in a usable alternative format for students with disabilities in accordance with their individual educational needs and course selection at the same time as those materials are available to non-disabled students. In accordance with applicable law and regulations, any such alternative format procured by the district will meet the National Instructional Materials Accessibility Standard.

For purposes of this policy, alternative format will mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a student with a disability enrolled in the school district, including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file. An electronic file must be compatible with at least one alternative format conversion software program.

The Superintendent will develop a plan to ensure the availability of alternative format materials in accordance with the timeliness requirements of this policy. Such a plan will provide for:

1. Preference to vendors who agree to provide instructional materials in alternative formats, and to reflect this requirement in the bidding specifications used for the procurement of instructional materials. The same preference will be given to vendors of instructional materials ordered for the school library.
2. Consultation with appropriate school personnel regarding how students will access electronic files. The district's technology staff will be notified of any need to convert electronic files into an accessible format such as Braille, large print, audio, or alternative display.
3. The availability of hardware and/or software a student with disabilities in need of alternative format materials might require to access the instructional material.
4. The yearly review of the district's ordering timelines for the purchase of instructional materials to ensure sufficient lead time for obtaining needed alternative format materials.
5. Notification to appropriate school personnel by the CSE, CSE subcommittee, CPSE and Section 504 Committee Chairperson whenever it is determined that a student needs instructional materials in alternative format. Such notice also will identify the particular alternative format needed, and any assistive technology devices or services the student might need to access the alternative format materials.
6. Notification by classroom teachers of the books they will be using in class and any list of required readings with sufficient lead time in anticipation of the district's timelines for the purchase of instructional materials.

DISTRICTWIDE AND STATEWIDE ASSESSMENTS OF STUDENTS WITH DISABILITIES

The Board of Education recognizes the importance of offering access and appropriate testing accommodations to eligible students so that they can participate in assessment programs on an equal basis with their nondisabled peers.

Testing Accommodations

Testing accommodations provide an opportunity for students with disabilities to:

- Participate in the instructional and assessment program;
- Demonstrate their strengths, knowledge and skills without being restricted by their disability; and
- Provide an accurate measure of the standards being assessed so that appropriate instruction and services can be provided.

Testing accommodations are changes made in the administration of the test in order to remove obstacles to the test-taking process that are presented by the disability without changing the constructs being tested. Examples of testing accommodations are: flexibility in scheduling/timing; flexibility in the setting for the administration of the test; changes in the method of presentation and changes in the method of response. Testing accommodations are neither intended nor permitted to: alter the construct being measured or invalidate the results, provide an unfair advantage for students with disabilities over students taking the test under standard conditions or substitute for knowledge or abilities that the student has not attained.

The Committee on Special Education, the Subcommittee on Special Education or the Committee on Preschool Special Education is responsible for recommending the appropriate test accommodations and including those recommendations on the student's Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Service Plan (SP). If it is determined that a student should participate in alternative assessments instead of the standard statewide or districtwide tests, the CSE must indicate the reasons for doing so on the IEP, IESP or SP. The 504 committee will include the appropriate test accommodations as part the 504 plan.

The recommendations will be reviewed annually by the CSE, CSE subcommittee, CPSE or 504 team. The Board acknowledges the importance of integrating the assessment program with the instructional program and, to that end, encourages effective communication among district staff so that implementation is consistent and fair. The goal is to provide effective assessments that allow students to benefit from their educational program.

In some situations, a building principal may authorize the use of testing accommodations in accordance with this policy. Those instances are limited to cases where a regular education student incurs a disability, such as, but not limited to, a broken arm, without sufficient time for the CSE, CPSE and/or Section 504 Committee to make a recommendation prior to a test. They do not include cases where the student is already being evaluated to determine his or her eligibility for status as a student

with a disability. In exercising this authority, the building principal will rely on his or her professional judgment. He or she also may confer with CSE, CPSE and/or Section 504 Committee members.

Universal Design Principles in Districtwide Assessments

The Board of Education recognizes the benefits of using the principles of universal design to further the goal of ensuring equal access to districtwide assessments and to ensure the most accurate measure of the performance of all students. The Board directs the Superintendent, in consultation with appropriate school staff, to examine how universal design principles can be incorporated into the district's assessment program, and to facilitate its use to the extent feasible. Any steps taken in this regard will be consistent with this policy and applicable State Education Department policy and/or guidance on the use of universal design principles.

At a minimum, the Superintendent will explore how district assessments can be:

1. Made more usable by students with diverse abilities.
2. Designed to better accommodate a wide range of individual preferences and abilities.
3. Made more understandable.
4. Made to communicate necessary information to students more effectively.
5. Designed to minimize adverse consequences of accidental or unintended actions.
6. Used more efficiently and comfortably and with a minimum of student fatigue.

USE OF TIME OUT ROOMS, PHYSICAL RESTRAINTS AND AVERSIVES

The Board of Education recognizes that students with disabilities sometimes exhibit inappropriate behaviors that impede learning. As a result, students with disabilities may require unique approaches to discipline so that they can continue to benefit from their educational program. The Board further acknowledges that the use of aversive behavioral intervention, as defined in §19.5 of the Commissioner's regulations, is prohibited unless the district has followed the procedures outlined below to allow for their use in a child-specific case.

The use of a time out room, physical restraint or aversive intervention will be in conformance with a child's individual education program (IEP). Staff will adhere to federal and state statute and regulation in the administration of these measures.

Time Out Room

A time out room is an area for a student to safely deescalate, regain control and prepare to meet expectations to return to his/her educational program. The room will only be used in conjunction with a behavioral intervention plan, as part the student's IEP. The room will provide a supervised area in order to facilitate self-control, or when it is necessary to remove a student from a potentially dangerous situation or unanticipated situations that pose an immediate concern for the physical safety of the student or others. The location, size and access to the time out room will be in conformance with applicable laws and regulations. The CSE Chairperson will be responsible for the development and implementation of regulations covering the use of a time out room, as well as monitoring compliance with those regulations.

The CSE Chairperson will inform parents prior to the initiation of a behavioral intervention plan that will incorporate the use of a time out room. Upon request, the parent will be shown the space that will be utilized. In addition, the parent will be provided a copy of this policy.

Physical Restraint

Staff will not use physical restraint as a substitute for systematic intervention to modify inappropriate behavior. Staff who may be called upon to physically restrain a student will be trained on safe and effective ways to do so. Physical restraint may be used in an emergency where no other approach would be effective in controlling the student's behavior.

NL Policy #

4321.12b

USE OF TIME OUT ROOMS, PHYSICAL RESTRAINTS AND AVERSIVES

Aversive Behavioral Intervention

Aversive behavioral intervention, as defined in §19.5 of the Commissioner's regulations, shall not be the sole or primary approach to modifying inappropriate behavior. This approach will be limited to self-injurious or aggressive behaviors identified on the child's IEP. If the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE) is considering the use of aversive behavioral intervention for a specific child, they must submit an application to the Commissioner. If the application is approved, and if the CSE/CPSE decides to incorporate it into the IEP, they must then notify the Commissioner.

The IEP shall identify the specific targeted behavior, the aversive intervention to be used and, if applicable, the device to be utilized. The parent must provide informed written consent for the use of the aversive intervention.

The district will establish a Human Rights Committee to monitor the use of aversive behavior interventions. The committee will be comprised of individuals not employed by the school district and its membership will be in conformance with Commissioner's regulations.

Training

Training for staff on the policies and procedures related to the use of time out rooms, physical restraint, aversives, and related behavior management practices, will be provided annually or as needed.

The CSE Chairperson will be responsible for implementation and oversight of this policy.

PRESCHOOL SPECIAL EDUCATION

The Board of Education recognizes the value of early intervention to address the needs of preschool children with disabilities. The Board further recognizes its responsibility to ensure that all resident preschool children with disabilities have the opportunity to participate in preschool programs, approved by the Commissioner of Education, from which they may benefit educationally. The Board authorizes the Superintendent of Schools to establish administrative practices and procedures which shall include:

1. locating, identifying, evaluating, referring and placing all preschool children (generally ages three and four) with disabilities. The register of children eligible to attend a preschool program is to be maintained and revised annually by the Committee on Preschool Special Education (CPSE);
2. ensuring that the parent(s)/guardian(s) of preschool age children with disabilities have received and understand the request for consent for evaluation of their child;
3. developing an individualized education program (IEP) for each preschool age child with a disability;
4. appointing appropriately qualified personnel to the CPSE, and ensuring that preschool education providers with whom the district contracts have appropriately trained and qualified personnel.
5. maintaining lists of impartial hearing officers and of State Education Department-approved special education programs within the county and adjacent counties in which the district is located;
6. preparing and keeping on file summary reports of student data including the number of preschool students with disabilities served, as well students referred but not served and the reasons why they are not served; and
7. reporting to the State Education Department the data on preschool children with disabilities as required, on a form prescribed by the Commissioner.

The duties described above will be carried out within the timeframes established by statute and regulation.

The Board of Education hereby establishes the CPSE as required under the Education Law. Its responsibilities will include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and services for each preschool child with a disability. The CPSE shall review, at least annually, the status of each preschool child with a disability. It is ultimately the responsibility of the Board to arrange for the appropriate

approved preschool program and services for the district's children. Should the Board disagree with the CPSE's recommendations, it shall send the recommendation back to the CPSE so that they may schedule a timely meeting to review the Board's concerns and to revise the IEP, as deemed appropriate.

In the event that a parent/guardian files a due process complaint, a meeting must be convened between the parent/guardian and representatives of the district to try and resolve the complaint within 15 days of receiving the notice, and before the initiation of an impartial hearing. Parents/guardians and the district will jointly determine who should be present at this meeting.

If an agreement cannot be reached, parent/guardians shall be offered mediation to resolve complaints regarding the education of preschool children with disabilities at the same time notice of the availability of an impartial hearing is provided.

The CPSE shall make an annual report on the status of each preschool child with a disability and report on the adequacy of preschool special education programs and services to the Board.

The Board directs the Superintendent to develop and maintain a plan which incorporates information concerning the provision of services for preschool children with disabilities, pursuant to the Regulations of the Commissioner of Education.

CONFIDENTIALITY AND ACCESS TO INDIVIDUALIZED EDUCATION PROGRAMS, INDIVIDUALIZED EDUCATION SERVICES PROGRAMS AND SERVICE PLANS

The Board of Education recognizes the importance of ensuring the confidentiality of personally identifiable data pertaining to a student with a disability. Personally identifiable data will not be disclosed by any school district employee or member of a CSE/CPSE to any person (other than the parent of such student), organization or agency unless the parent or guardian of the child provides written consent; there is a valid court order for such information; or disclosure is permitted by law.

Personally identifiable data is defined in the policy on Student Records, 5500.

The Board of Education, while acknowledging the confidentiality requirement, believes that in order for each student with disabilities to receive the full benefit of his/her Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Service Plan (SP), individuals responsible for implementing the program or plan must, prior to the implementation, fully understand the scope of their responsibility and the specific accommodations, modifications and supports to be provided.

To this end, this policy establishes procedures to ensure that any person having both direct contact with a student with an IEP, IESP or SP and a responsibility to provide a service, accommodation or program modification for the student in accordance with that student's IEP, IESP or SP shall be informed of his/her responsibilities under the IEP, and shall receive or have access to a copy of the student's IEP, IESP or SP as specified below.

I. IEP, IESP or SP Copies

At a CSE, CSE Subcommittee or CPSE meeting for each student, a determination will be made as to which general education teachers, special education teachers, related service providers and other service providers have responsibility to implement the recommendations on the student's IEP, IESP or SP. "Other service provider" means a representative of another public school district, charter school, BOCES program, child care institution school, Special Act school district, State-supported school, approved private in-state or out-of-state school and an approved preschool provider where the student receives or will receive IEP, IESP or SP services.

The CSE, CSE Subcommittee and CPSE Chairpersons shall ensure that a paper or electronic copy of each student's IEP, IESP or SP is provided to each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for implementation of the program or plan. These individuals responsible for implementing an IEP, IESP or

SP shall, in turn, ensure that all paraprofessionals (teacher aides and teacher assistants) and other providers responsible for assisting in implementation are given the opportunity to review their copy of the IEP, IESP or SP prior to program implementation as well as have ongoing access to such copy.

In addition to disseminating copies of a student's IEP, IESP or SP, CSE, CSE Subcommittee and CPSE Chairpersons must designate one or more professional employees of the district with knowledge of the student's disability and program to inform each regular education teacher, special education teacher, related service provider, other service provider, paraprofessional, and other provider and support staff person of his or her responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP, IESP or SP. In selecting the professional staff person(s), the chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional, as appropriate.

III. Confidentiality

All copies of a student's IEP, IESP or SP provided or made accessible under this policy must remain confidential, and shall not be disclosed to any other person, except in accordance with the Individuals with Disabilities Education Act (IDEA) and the Family Educational Rights and Privacy Act (FERPA). To ensure such confidentiality, the CSE and CPSE Chairpersons shall include with each IEP, IESP or SP copy provided or made accessible under this policy, a copy of the Board's policy on student records (Policy 5500). All IEP, IESP or SP copies must remain in a secure location on school grounds at all times. If IEP copies are transmitted and/or provided electronically, security systems (e.g., password protect a file or folder) must be implemented to prevent unauthorized internal and external access to the student's IEP, IESP or SP.

IV. Documentation

The designated professional employee(s) defined in section II above shall obtain the signature of each person covered by this policy, indicating that he or she:

1. has received either a copy of the student's IEP, IESP or SP or the opportunity to review the IEP, IESP or SP prior to its implementation, as required under state law and regulation;
2. has been informed of their responsibilities for implementation;

IMPARTIAL HEARING OFFICER APPOINTMENT AND COMPENSATION

The Board of Education will appoint impartial hearing officers (IHO), as needed, to hear complaints regarding the identification, evaluation, or placement of students with disabilities, or the provision of a free appropriate public education to such a student in accordance with the rotational selection process and other applicable procedures described in Commissioner's regulations.

Selection

The updated list of certified IHOs for this county promulgated by the New York State Education Department will be used in connection with requests for impartial hearings. The list shall also include the names of those other certified IHOs whose names appear on the state list and who have indicated to the district their interest in serving as an IHO in the district.

Upon receipt of a request for an impartial hearing, the rotational selection process for the IHO shall be initiated immediately and always within two (2) business days after receipt by the district of such written request. Should an IHO decline appointment, or if within 24 hours the IHO fails to respond or is unreachable after reasonable efforts by the District Clerk or designee, such efforts will be documented through independently verifiable efforts. The district representative shall then proceed through the list to determine availability of the next successive IHO.

The District Clerk or other person so designated, under the direction of the Board President, shall initiate the selection process by contacting the impartial hearing officer whose name first appears after the impartial hearing officer who last served. The District Clerk or designee shall canvass the list in alphabetical order as prescribed by the Regulations of the Commissioner of Education until an appointment is accepted. Pursuant to the Regulations of the Commissioner of Education, if an impartial hearing is currently pending for the same student when a new hearing request is received, the district will appoint the same IHO, if available, who will determine whether or not to consolidate the hearings. Additionally, if the new hearing request concerns an issue which had been previously withdrawn in the 12 months prior, the district shall appoint the same IHO, if available.

An IHO on the district's rotational list may not accept appointment unless he or she is available to:

1. Make a determination on the sufficiency of the due process complaint that will be heard at the hearing within five days of receiving such a request; and

NL Policy

4321.8b

IMPARTIAL HEARING OFFICER APPOINTMENT AND COMPENSATION

2. Initiate the hearing within the first 14 days after either:
 - The date on which he or she receives written notice that the parents and the district waived their right to hold a resolution meeting to resolve their differences prior to commencement of the hearing, or met but were unable to reach agreement; or
 - The expiration of the 30-day period beginning with the receipt of the due process complaint, whichever occurs first.

Appointment

The Board President, or in his or her absence or inability the Vice President, will appoint an IHO immediately after the IHO selected from the rotational list indicates he or is available.

The Board will rescind the appointment of an IHO and appoint a new one if, the parties to the hearing mutually agree that the IHO is either incapacitated or otherwise unavailable or unwilling to continue the hearing or issue a decision. The appointment of a new IHO in such an instance will be made in accordance with the selection and appointment procedures established by this policy.

Compensation

The district shall compensate an impartial hearing officer for his or her services at the maximum rate established for such purpose by the Director of the Division of the Budget. Currently, this rate is \$100.00 per hour for pre-hearing, hearing, and post-hearing activities. In addition, impartial hearing officers may be reimbursed for reasonable, actual and necessary expenses for automobile travel, meals and overnight lodging in accordance with the current district reimbursement rate set for district employees. Mailing costs associated with the hearing will also be reimbursed. The District will not reimburse impartial hearing officers for administrative assistance, secretarial or other overhead expenses.

Cancellation

The district shall attempt to provide an Impartial Hearing Officer with two (2) business days' advance notice of the cancellation or re-scheduling of an impartial hearing. Should the district request the cancellation or re-scheduling of a hearing date and fail to provide an Impartial Hearing Officer with two (2) days notice, the district agrees to pay the Impartial Hearing Officer a fee of \$100.00. The district shall not be responsible for costs associated with a parent or guardian's cancellation or adjournment of a hearing.

A copy of this policy will be forwarded to the impartial hearing officer at the time of appointment.

INDEPENDENT EDUCATIONAL EVALUATIONS

The Board of Education recognizes the right of parents or guardians of a student who has or is thought to have a disability to receive an independent evaluation at public expense if they disagree with the evaluation obtained by the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE).

The independent examination shall be conducted by a qualified examiner who is not employed by the school district responsible for the child's education. Upon request, parents will be provided with a list of public and private agencies and professional resources where independent evaluations may be obtained. These publicly-funded independent evaluations shall be limited to the same geographic and fiscal limitations as used by the district when it initiates an evaluation.

The district has the right to initiate an impartial hearing to demonstrate that its evaluation is appropriate. If the hearing officer determines that the district's evaluation was appropriate, a parent or guardian is not entitled to reimbursement at public expense.

The Board directs the Superintendent of Schools to develop regulations establishing maximum allowable fees for specific tests, the geographic area in which such evaluations may take place, and minimum qualifications of the professionals who administer and interpret various tests.

SPECIAL EDUCATION MEDIATION

The District will offer mediation as an alternative to the impartial hearing process in disputes regarding the provision of a free, appropriate public education for students identified by the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) as having a disability, or students suspected of having a disability. Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of a school district or program serving students with disabilities. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process.

Parents or persons in parental relationship to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial hearing procedures in accordance with Federal and State law and regulations. If the parent and District agree, alternative means of meeting participation may be utilized, such as video conferences and conference calls.

Discussions during the mediation process must be confidential and may not be used as evidence in any subsequent due process hearing or civil proceedings.

If resolution to the complaint is reached through mediation, the parent and the representative of the District who has the authority to bind the District will execute a legally binding written agreement specifying the resolution and stating that all discussions occurring during the mediation process are confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding of any Federal or State court. If the written agreement is inconsistent with the student's current individualized education programs (IEP), the IEP must be immediately amended to reflect the mediation agreement.

Mediation will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relationship to request an impartial hearing subsequent to mediation. Parents or persons in parental relationship to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relationship from requesting an impartial hearing without having first utilized mediation procedures set forth in Education Law.

DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The Board of Education recognizes that it may be appropriate to declassify some students with disabilities. A student may mature and develop skills such that they no longer require the special program, support services or accommodations offered by an Individualized Education Program (IEP), Individualized Education Services Program (IESP) or Services Plan (SP). The Committee on Special Education (CSE), the CSE Subcommittee or, the Committee on Preschool Special Education (CPSE), as applicable, is responsible for making this judgment, while adhering to the requirements of federal and state law and regulation.

Reevaluation

Prior to determining that a student is no longer eligible for special education services and should be placed in a full-time regular education program, the CSE, CSE subcommittee, or CPSE, as applicable, will conduct a declassification evaluation of the student in accordance with the process and procedures prescribed for the evaluation and reevaluation of students with disabilities, by applicable law and regulations. However, the CSE, CSE subcommittee, or CPSE members may determine after reviewing existing evaluation data that no additional information is needed to determine the student's continued eligibility for services.

When a determination is made that no additional data is needed for reviewing a student's continued eligibility for special education services, the CSE, CSE subcommittee, or CPSE Chairperson, as applicable, will notify the student's parents of that determination and the reasons for it, and of their right to nonetheless request an assessment. Unless the student's parents make such a request, the district will not conduct any further assessments.

The district will provide the student's parents with a copy of the reevaluation report and documentation regarding the eligibility determination.

Consistent with applicable law and regulation, the district will not conduct a declassification evaluation if the reason why a student is determined to be ineligible for special education services is that he or she has either:

1. Graduated with a regular high school or Regents diploma; or
2. Exceeded the age of eligibility for services.

NL Policy #

DECLASSIFICATION OF STUDENTS WITH DISABILITIES

However, in such an instance the district will provide the student with a summary of his or her academic achievement and functional performance that also includes recommendations on how to assist the student in meeting his or her post-secondary goals.

Declassification Support Services

It is the goal of the Board of Education to provide an opportunity for the student to succeed in the transition to the regular education program. In order to facilitate that success, the CSE/CPSE may offer educational and support services for a period of time, not to exceed one year. Declassification support services may include:

4. For the student, psychological services, social work services, speech and language improvement services, non-career counseling, and other appropriate support services.
2. For the student's teachers, the assistance of a teacher aide or a teaching assistant, and consultation with appropriate personnel.

The CSE/CPSE will ensure that the appropriate teachers and service providers are informed of the need for the transition services, and will specify the nature and duration of those services.

INSTRUCTION FOR ENGLISH LANGUAGE LEARNERS OR STUDENTS WITH LIMITED ENGLISH PROFICIENCY

The Board of Education believes that students who, by reason of foreign birth or ancestry, have limited English proficiency (referred to here as “English Language Learners” or ELLs), will be more effective learners of both the language and the curriculum if they receive instruction in both their native language and English. The district will therefore take steps to identify ELL students and provide ELL students with an appropriate program of either Bilingual Education or English as a New Language.

Pursuant to this policy and the regulations of the Commissioner of Education, the Superintendent of Schools is directed to develop appropriate administrative regulations to ensure that students are:

1. screened to determine if the student is an ELL, in accordance with Parts 117 and 154 of the Commissioner's Regulations, a process that will include interviews and assessments and will assign each ELL student to the appropriate subpopulation (newcomer, developing, long term, former or inconsistent/interrupted formal education);
2. identified, as appropriate, as an ELL student with a disability;
3. annually evaluated to determine continued ELL eligibility. Included in the evaluation shall be each student's performance in English language proficiency and academic progress in content areas;
4. assured of access to appropriate instructional and support services, including guidance programs within the timeframes provided by Commissioner's Regulations; and
5. assured of having equal opportunities to participate in all school programs and extracurricular activities as non-ELL students.

The Superintendent shall be responsible for ensuring that the Commissioner of Education is provided with a comprehensive plan that describes the district's ELL program and includes all information specified in the Commissioner's Regulations, before the start of each school year. The district will also provide assurances that the district is providing appropriate school-related information to the parents (or persons in parental relation) of ELL students in English and the language they best understand.

The district will provide an orientation program annually for ELL parents and will meet individually with ELL parents at least once a year, in addition to regular parent/teacher meetings.

In addition, the Superintendent shall ensure that all teachers employed in any Bilingual and/or English as a New Language program are properly certified in accordance with the Commissioner's Regulations, and that all staff receive appropriate professional development on ELL students.

HOMEBOUND INSTRUCTION

Homebound instruction is a service provided to students who are unable to attend school due to medical, emotional or disciplinary problems. Secondary students receive instruction for two hours per day and elementary students receive one hour per day. Students receive credit for their work while on homebound instruction.

The district makes provisions for homebound instruction upon referral from the student's physician or from the Medical Director following the guidelines established by the Superintendent of Schools for placing a student on homebound instruction.

Homebound instruction will strive to keep the student on pace to rejoin his/her class and maintain academic progress. The Board recognizes that students who are out of school for extended periods of time are at risk of falling behind academically and/or losing connection to the school community. The Board directs the administration to evaluate periodically whether homebound instruction is effective in keeping students on track to graduate, and if not, to take steps to improve instruction and implement approaches and/or offer services that support the transition back to school.

Teachers wishing to use the summer period for course development or renewal shall follow administrative procedures for submission of a Proposal for Curriculum Development to the Superintendent of Schools.

Upon completion of the project, the teacher(s) shall prepare a brief report to the Board of Education which explains what was accomplished as a result of the summer project. SEVENTH AND EIGHTH GRADE ACCELERATION, AP COURSES AND DUAL CREDIT COURSES

Academic growth, like physical growth does not take place at the same pace or time for all individuals. Some students may achieve mastery in a shorter period and thus would be eligible for acceleration at the seventh grade level. Acceleration provides an opportunity for children to learn at a pace which is challenging and individually appropriate.

Therefore, this policy is established to provide a method to identify those students with the ability to meet the criteria for acceleration.

General

- a) Screening and identification of eligible students will be done by the Elementary and Jr./Sr. High School Principals, Guidance Counselor and appropriate grade level teachers.

Dual Credit and Advanced Placement (AP) Courses

1. To enroll in these rigorous courses, a student should earn a final grade average of 85 or better in relevant coursework and have received recommendation from the Department Curriculum Coordinator.

All Areas

- a) Preliminary consideration for acceleration will begin during course selections with final selection and recommendation made in June after final grades are recorded.
- b) Once the students have been identified for possible acceleration, school personnel will notify the students and their parents/guardians to explain the advantages and disadvantages involved. Parents have the right to refuse acceleration for their child(ren).
- c) A student may challenge exclusion from acceleration by requesting a review to be conducted by the guidance counselor, the subject-area teacher, the building administrator, with a parent present at the review, and any other appropriate staff.
- d) Should acceleration prove to be unsuccessful within the first ten (10) weeks of school, the student may return to the appropriate grade level without limiting future options.

LIBRARY MATERIALS SELECTION

The Board of Education, as the governing body of the school district, is legally responsible for the selection of library materials, including the selection and approval of printed and non-printed materials for its use. Since the Board is primarily a policy-making body, it delegates to the following professional personnel of the district the authority for the selection of materials: teachers, Principals, librarians, etc., under the leadership of the Superintendent of Schools.

In order to provide the Superintendent and his/her staff with guidance in the acquisition of instructional resource material, such as library books, references, audiovisuals, maps, etc., the Board endorses the guidelines approved by the American Library Association that such resources:

1. provide information that will enrich and support the curriculum, taking into consideration the varied interests, abilities, and maturity levels of the students served;
2. provide information that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards;
3. provide information that will enable students to make intelligent judgments in their daily lives;
4. provide information on opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical reading and thinking;
5. provide information representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage; and
6. place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library.

The Superintendent shall be responsible for the selection of resource materials within the aforesaid guidelines and for the determination of factual accuracy, readability, authoritativeness, integrity and quality of format. To assist in the selection process, reputable, unbiased professionally prepared aids (such as the Horn Book, School Library Journal, etc.) shall be consulted as guides.

In order to respond to any complaints about, or challenges to, the selection of library materials, the district has adopted regulations (4513-R, Complaints About Library Materials Selection) establishing a complaint procedure and providing for a committee to review such complaints or challenges.

COMPUTER USE IN INSTRUCTION (or ACCEPTABLE USE POLICY)

The Board of Education is committed to optimizing student learning and teaching. The Board considers student access to a computer network, including the Internet, to be a powerful and valuable educational and research tool, and encourages the use of computers and computer-related technology in district physical and digital classrooms for the purpose of advancing and promoting learning and teaching.

The computer network can provide a forum for learning various software applications and through online databases, bulletin boards and electronic mail, can significantly enhance educational experiences and provide statewide, national and global communication opportunities for staff and students.

All users of the district's computer network and the Internet must understand that use is a privilege, not a right, and that use entails responsibility. The district reserves the right to control access to the Internet for all users of its computers and network. The district may either allow or prohibit certain kinds of online activity, or access to specific websites.

Regulations and handbooks, to be developed by the Superintendent, in consultation with the building principals will provide specific guidance on this, as well as rules governing the use and security of the district's computer network. All users of the district's computer network and equipment shall comply with this policy and regulation. Failure to comply may result in disciplinary action as well as suspension and/or revocation of computer access privileges.

The Superintendent shall be responsible for providing in-service programs for the training and development of district staff in computer skills, and for the incorporation of computer use in appropriate subject areas.

With increased concern about identity theft, unwarranted invasion of privacy and the need to protect personally identifiable information, prior to students being directed by staff to use any cloud-based educational software/application, staff must get approval from the Network Engineer. The Network Engineer will determine if a formal contract is required or if the terms of service are sufficient to address privacy and security requirements, and if parental permission is needed.

The Superintendent, working in conjunction with the designated purchasing agent for the district and the computer network engineer will be responsible for the purchase and distribution of computer software and hardware throughout district schools. They shall prepare and submit for the Board's approval a comprehensive multi-year technology plan which shall be revised as necessary to reflect changing technology and/or district needs.

INTERNET SAFETY

The Board of Education is committed to undertaking efforts that serve to make safe for children the use of district computers for access to the Internet and World Wide Web. To this end, although unable to guarantee that any selected filtering and blocking technology will work perfectly, the Board directs the Superintendent of Schools to procure and implement the use of technology protection measures that block or filter Internet access by:

- adults to visual depictions that are obscene or child pornography, and
- minors to visual depictions that are obscene, child pornography, or harmful to minors, as defined in the Children's Internet Protection Act.

Subject to staff supervision, however, any such measures may be disabled or relaxed for adults conducting bona fide research or other lawful purposes, in accordance with criteria established by the Superintendent or his or her designee.

The Superintendent or his or her designee also shall develop and implement procedures that provide for the safety and security of students using electronic mail, chat rooms, and other forms of direct electronic communications; monitoring the online activities of students using district computers; and restricting student access to materials that are harmful to minors.

In addition, the Board prohibits the unauthorized disclosure, use and dissemination of personal information regarding students; unauthorized online access by students, including hacking and other unlawful activities; and access by students to inappropriate matter on the Internet and World Wide Web. The Superintendent or his or her designee shall establish and implement procedures that enforce these restrictions.

The computer network administrator designated under the district's policy on the acceptable use of district computers (policy 4526) shall monitor and examine all district computer network activities to ensure compliance with this policy and accompanying regulation. He or she also shall be responsible for ensuring that staff and students receive training on their requirements.

All users of the district's computer network, including access to the Internet and World Wide Web, must understand that use is a privilege, not a right, and that any such use entails responsibility. They must comply with the requirements of this policy and regulation, in addition to generally accepted rules of network etiquette, and the district's policy on the acceptable use of computers and the internet. FIELD TRIPS AND EXCURSIONS

The Board of Education recognizes the desirability of providing off-campus experiences which will enhance the educational program of the school system. The Superintendent of Schools will determine the frequency and content of class field trips. Each student must secure the permission of his/her parent or guardian before participating in such activity.

Factors relevant in consideration of approval of such field trips may include the relationship to the curriculum, the distance of the trip, availability of transportation, the cost involved, weather conditions, and full utilization of transportation. The Superintendent shall prepare procedures for obtaining necessary transportation and for procedures for the operation of such field trips.

Overnight Field Trips

Trips in excess of one day involving overnight travel should be approved by the Superintendent of Schools prior to making any commitments or arrangements.

Transportation

When the district provides transportation to students on a school-sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the district unless:

1. the parent or legal guardian of a student participating in such event has provided the district with a written notice authorizing an alternative form of return transportation for the student; or
2. intervening circumstances make such transportation impractical.

Where intervening circumstances have made transportation back to the point of departure or to the appropriate school in the district impractical, a representative of the district shall remain with the student until such student's parent or legal guardian has been contacted and the student has been delivered to his/her parent or legal guardian.

The Board encourages volunteers from all backgrounds and age groups who are willing to share their time, training, experience or personal characteristics to benefit the students of the district.

Volunteers may be involved in many facets of school operations, from mentor/tutor relationships to clerical tasks. Volunteers shall not be used to provide transportation for school-sponsored activities.

No volunteer shall be permitted to have unsupervised direct contact with students.

School personnel who are responsible for tasks or projects that involve the use of volunteers shall identify appropriate tasks and time schedules for such volunteer activities, as well as make provisions for adequate supervision and evaluation.

CLASS RANKING FOR HIGH SCHOOL STUDENTS

The purpose of this policy is to establish a method to rank students in order of scholastic achievement, from highest to lowest.

The method used to determine class standing will be as follows:

- a) All subjects are to be used in computing a student's grade point average. A weighted grade point average will be calculated to reflect the difficulty of courses taken by District students. By utilizing a weighted grade point average, students voluntarily taking on a more rigorous course of study are less likely to be placed at a disadvantage in computation of class rank and students will be encouraged to register for and remain enrolled in the more challenging courses.

Courses will be weighted in the following manner:

1. All Advanced Placement or dual credit courses will be given a weight of 1.10.
 2. All Regents level core courses will be given a weight of 1.05. Regent's core courses include mathematics, Regent's level science, foreign language, English and social studies.
 3. All "stretch courses" will be given a weight of 1.00. A "stretch course" is defined as a typical one year Regent's level course that is taken over a longer period of time (three or more semesters).
 4. All non- Regent's and Regent's non-core courses will be given a weight of 1.00.
 5. Half-year courses are given a weight of 0.5 for non-core courses and a weight of 0.525 for Regent's core courses.
- b) The student with the highest grade point average, computed in the manner described above, at the end of the second marking period of the senior year, will be designated New Lebanon Jr./Sr. High School Valedictorian. The student with the second highest grade point average will be designated New Lebanon Jr./Sr. High School Salutatorian. Students must have been enrolled in New Lebanon Jr./Sr. High School for four consecutive semesters prior to January of their senior year in order to be eligible for designation as Valedictorian or Salutatorian.

PROMOTION AND RETENTION OF STUDENTS

It is essential that each child experience both challenge and success from school activities. To this end, the district will make every effort to place each student in the most appropriate learning level for a successful educational experience.

District curriculum guides indicate goals for achievement by the "average" student at each grade level. However, academic growth, like physical growth, does not take place at the same pace or time for all individuals. Certain students may achieve mastery in a shorter period, while others need additional time. Early identification and intervention, promotion and retention are methods of meeting the needs of such children.

The following guidelines shall govern student progression:

Early Identification/Intervention

Classroom teachers are expected to make every effort, consistent with the district's implementation of response to intervention (RTI), to identify early those students at risk of failing. The Building Principal and the parents/guardian must be notified promptly if retention is anticipated, and a special support program shall be designed for each child identified as in danger of failing. Such support services may include, but are not limited to, individualized assistance before, during or after the school day; a change in instructional approach, remedial classes; and, where appropriate, referral to the RTI team, Child Study Team or ultimately the Committee on Special Education for evaluation.

Promotion/Retention

Elementary schools. At the elementary level, students who pass all subjects will be promoted. Students who do not make satisfactory progress in one or more basic subjects -- Reading, English, Mathematics, Spelling, Social Studies and Science -- shall have their cases considered on an individual basis and may be retained. Retention shall be limited to those situations where the best interest of the child is reasonably assured. Diligent effort shall be made to use all available resources to determine the child's appropriate placement.

Junior High schools. Students who do not pass all subjects shall have the failure evaluated and a determination made as to the reason for the failure. The student may be required to repeat the subject, but in typical cases shall be promoted with recommendation for intervention. The decision shall be arrived at by consensus from a case conference approach involving teacher, Principal and guidance counselor.

PROMOTION AND RETENTION OF STUDENTS

Senior High School. In general, promotion from one class to the next shall be contingent upon the accumulation of 5.5 units of credit at each level.

Academic standards. Building Principals shall be responsible for ensuring that written standards for student progress at each grade level are available to parents and others upon request. Such academic standards are to be forwarded to the Superintendent of Schools each year.

Retention. A decision to retain shall be arrived at by consensus from a case conference approach involving the teacher, Building Principal, school psychologist, and parent/guardian. Factors to be considered include teacher recommendation; classroom achievement and attitude; standardized test scores; social and emotional development; results of the family conference; and, for identified students, recommendations by the Committee on Special Education. Standardized test scores will not be the sole or primary factor in the decision. If a consensus cannot be reached, the decision of the Building Principal shall be final.

No student will be retained without an appropriate educational plan defining what will occur that is instructionally different for the student. Once the educational plan has been implemented, the student will be monitored regularly. The educational plan will be revised until the student demonstrates acceptable performance.

In order to inform parents/guardians about the district's approach to promotion and retention, this policy will be posted on the district website.

GRADUATION CEREMONIES

The graduation or commencement ceremony is a time to celebrate the honors and achievements of the graduating class. The Board of Education will establish the date for graduation ceremonies, while the administration will determine the place and program details, including attire. Academic and other awards and scholarships may be presented along with diplomas. Speakers may be selected from among the graduating class or others.

Participation in the graduation ceremony and related activities will be predicated on satisfactory completion of all graduation requirements, or as otherwise described in this policy. Exceptions may be made under extraordinary circumstances with the permission of the Superintendent of Schools. A student who has earned either a Career Development and Occupational Studies Commencement Credential (CDOS) or Skills and Achievement Commencement Credential (SACC) by the time his/her ninth-grade cohort reaches graduation may, but is not required to, participate in that graduation ceremony and related activities.

If a student who participates in the graduation ceremony by earning a CDOS or SACC only subsequently meets the requirements for either a Regents or local high school diploma, he/she may participate in the graduation ceremony of that graduating class as well.

A student with a disability who participates in graduation ceremonies by earning only a CDOS or SACC is entitled to continue his/her educational program until the end of school year in which the student turns 21 years old, or until he/she earns a Regents or local high school diploma.

The Superintendent shall develop regulations to implement this policy, to be adopted by the Board. The district shall provide annual written notice to all students and their parents/guardians of the requirements of this policy and associated regulations.

TEACHING ABOUT CONTROVERSIAL ISSUES

The Board of Education recognizes its broad responsibility for providing for a course of study in the schools that is appropriate to the readiness of the students in the district. The Board also recognizes that within the broad parameters of curriculum, a teacher must be free to engage the classroom in discussion and debate in order to stimulate the exchange of ideas and critical thinking. The goal is for students to learn to disagree respectfully and discuss and examine issues rationally, objectively and thoroughly, to enable students to draw informed conclusions, and function productively and with civility in our democratic society.

The Board also acknowledges that schools do not exist in a vacuum; they are part of communities and wider societies. Controversial issues ~~may arise~~ are those which deal with matters about which there are varying levels of opposing or conflicting views, biases, emotions, and/or opinions. Controversial topics will always exist in our world as long as people have differing opinions. The Board permits teachers to address controversial topics in schools, which are related to the approved curriculum, to provide a safe, supportive, inclusive and structured environment where ideas and viewpoints can be discussed.

Discussion of controversial topics in the classroom is at the discretion of the teacher. Issues with no factual basis for controversy are not treated as controversial for purposes of this policy.

The Board wishes to ensure that controversial issues are presented in a manner that preserves the academic integrity of the district, are of significant interest to the community, have political, economic, cultural, or social significance, and ~~reflects community values~~ encourages students to come to their own opinions while respecting the opinions of others, and promotes inclusivity and dignity for all students.

The Board establishes the following guidelines for teachers to follow when presenting controversial issues in the classroom:

1. In the classroom, matters of a controversial nature are permitted.
2. When presenting various positions on a controversial issue, in order for classroom discussion to be rigorous, teacher will take care to:
 - balance major views;
 - assure that as many sides of the issues as possible are presented in a fair manner; and
 - not support one position as the only one acceptable.

NL Policy #

4810b

3. Grading is based on objective criteria, without bias toward students' positions on the subject matter.
4. Discussion of controversial issues is conducted in a manner that takes into account students' age and development level.
5. Teachers will present adequate background information so that students can have informed discussions and be able to discuss the issue intelligently.
6. Teachers will review and ensure that their use of sources of supporting information dealing with controversial topics outside the scope of the prescribed curriculum
 - have educational value and are relevant to the curriculum;
 - are appropriate to the developmental level of the students;
 - do not adversely affect the attainment of the district's instructional goals; and
 - receives the approval of their Department Head prior to utilizing such sources.

The Board supports its staff in gaining the skills to be fully capable of discussing and presenting controversial topics, which includes successfully guiding students through the process, and managing contentious or heated exchanges. The district will provide for professional development and mentoring for teaching and administrative staff in this area, and encourages staff to participate in these activities.

RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

NL Policy #

RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

Curriculum Areas In Conflict With Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy.

ANIMALS IN THE SCHOOLS

The Board of Education recognizes that the study of living things is essential to effective instruction in the life sciences. The primary goals for demonstrations and investigations involving animals are to achieve an interest in and an understanding of the life processes, to demonstrate biological principles, and to teach proper care and handling of animals. Therefore, the Board requires that any such instructional activities, investigations, and projects be well-planned and adequately supervised, and be conducted with a respect for life and an appreciation of health and safety of both animals and students.

The Board also recognizes that some students have moral or religious objection to dissection or otherwise harming or destroying animals. In accordance with state law, students shall have the right to opt out of dissection activities, provided that the student performs an alternative project approved by the student's teacher. The objection must be substantiated in writing by the student's parent or guardian.

At the start of the school year, teachers of courses that include animal dissection shall give notice to the students in those classes of their opt-out rights and responsibilities under the law and this policy. Such notice shall be shared with parents of those students, and also be available upon request.

SOCIAL SERVICE DOGS

The school district supports the use of social service dogs by teachers or other qualified school personnel ("owner/handler") for the benefit of its students subject to the conditions of this policy.

A 'Social Service Dog' is a dog that has been individually trained and certified to work with its owners/handlers to provide emotional support, well-being, comfort, or companionship to school district students. Social Service Dogs, for the purposes of this policy, are not "service animals" as that term is used in the American with Disabilities Act.

Social Service Dogs are personal property of the teacher or employee and are not owned by the school district. Only district sponsored service dogs are allowed on school property.

Social Service Dog Standards and Procedures. The following requirements must be satisfied before a social service dog will be admitted into the district sponsored social service dog program and allowed in school buildings or on school grounds:

Requests:

All individuals who wish to apply for a district sponsored social service dog in training will have to fill out the application which will be reviewed by the building principal and superintendent. A meeting will also be required. After completion of the application and meeting the request will be accepted or denied. The administrator and district will limit the dogs accepted into the program based on need.

Training and Certification:

The owner must follow all training recommendations from the Committee. This will include Puppy Socialization Class, American Kennel Club's Canine Good Citizen and Therapy Dog International Certification for Social Service Dogs. The owner must submit a copy of each certification to Central Office annually. The certifications must remain current at all times that the Social Service Dog is present in any New Lebanon School.

Health and Vaccinations:

The social service dog must be clean, well groomed, in good health and immunized against diseases common to dogs. Initially, the owner must submit proof of current licensure from the local licensing authority and proof of social service dog's current vaccinations and immunizations from a licensed veterinarian.

NL Policy #

4855b

Control:

A social service dog must be under the control of the teacher or school employee through the use of a leash or other tether unless the use of a leash or tether would interfere with the social service dog's safe, effective performance of its work or tasks.

Identification:

The social service dog must have appropriate identification clearly indicating that it is a social service dog.

No Disruption:

The social service dog must not disrupt the educational process by barking, seeking attention, or engaging in any other disruptive behavior.

Health and Safety:

The social service dog must not pose a health and safety risk to any student, employee, or other person at school.

Supervision and Care of Social Service Dogs:

The owner is solely responsible for the supervision and care of the social service dog, including any feeding, exercising, and clean up while the animal is in a school building or on school property. The school district is not responsible for providing any care, supervision, or assistance for a social service dog. Social service dogs that are part of the New Lebanon CSD social service dog program will be required to have designated 'co-handlers' whose role it will be to assist with the care of the dog and its integration into the entire school community.

Authorized Area(s):

The owner shall only allow the social service dog to be in areas in school buildings or on school property that are authorized by school district administrators.

Insurance:

District sponsored social service dogs are covered under the district's insurance policy.

Exclusion or Removal from School:

A social service dog may be excluded from school property and buildings if a school administrator determines that:

NL Policy #

4855c

1. A handler does not have control of the social service dog;
2. The social service dog presents a direct and immediate threat to others in the school; or
3. The animal's presence otherwise interferes with the educational process.

The owner shall be required to remove the social service dog from school premises immediately upon such a determination.

Allergic Reactions:

If a student or school employee assigned to a classroom in which a social service dog is permitted suffers an allergic reaction to the social service dog, the owner of the animal will be required to remove the animal to a different location, designated by an administrator.

RIGHTS OF STUDENTS WITH DISABILITIES UNDER SECTION 504

The Board of Education shall ensure that no student is discriminated against in programs or activities receiving federal financial assistance. Individuals protected by Section 504 of the Rehabilitation Act of 1973 are those individuals who: have a physical or mental impairment which substantially limits one or more major life activities (e.g. caring for one's self, performing manual tasks, walking, standing, lifting, bending, seeing, hearing, speaking, breathing, learning, reading, concentrating, thinking, communicating and working); have a record of such impairment; or are regarded as having such an impairment. Students who qualify for protection under Section 504 are: of an age during which non-disabled children are provided preschool, elementary or secondary education services; of an age during which it is mandatory under state law to provide such educational services to disabled children; or to whom a state is required to provide a free appropriate public education (e.g. under IDEA).

The Board directs the administration to identify, evaluate, refer, place, provide adaptations for and review all eligible students with disabilities. A student whose disability is episodic or in remission is still eligible to be qualified under the Act. In addition, the determination that a student has an impairment that substantially limits a major life activity will be made without regard to whether mitigating measures (such as medication, devices, prosthetics, hearing aids, etc.) ameliorate the effects of the disability.

Students with disabilities pursuant to Section 504 shall be provided a free appropriate public education which may include, but is not limited to, providing a structured learning environment; repeating and simplifying instructions about in-class and homework assignments; supplementing verbal instructions with visual instructions; using behavioral management techniques; adjusting class schedules; modifying test delivery; using tape recorders, computer-aided instruction, and/or other audiovisual equipment; selecting modified textbooks or workbooks and tailoring homework assignments or modification of nonacademic times such as lunchroom, recess and physical education.

The Board directs the Superintendent to provide the staff appropriate training in this area of the law so as to ensure that the district is able to comply with the law in not discriminating against students with disabilities.

COMPLAINTS AND GRIEVANCES BY STUDENTS

The Board of Education believes it is necessary that students be made aware of the behavior that is expected of them, as outlined in district policies on school conduct and discipline. Building Principals are responsible for ensuring that appeal procedures are incorporated into discipline codes and/or student handbooks, explained to all students, and provided to all parents on an annual basis.

The Board encourages students to be active participants in the educational process. The Board strives to provide students with a sound educational environment, ensure that all students are treated fairly, and afford students the due process protections they are entitled to under the law. The Board understands that there may be times when students do not agree with school practices or feel as though they have been treated unfairly.

Many concerns about school practices can and should be addressed through the student government. Student handbooks may also provide valuable information. For other issues, the district has different channels for resolution of complaints, depending on the nature of the complaint. Understanding the Board policy on an issue is the first step towards resolving any complaints. Students are urged to follow the established Board policy, but should always feel free to discuss concerns with any school staff member or the Building Principal. School staff and administrators are expected to work with students toward an amicable resolution of the issue.

COMPREHENSIVE STUDENT ATTENDANCE POLICY

Purpose/Statement of Objectives

- a) This Board of Education attendance policy has been developed and implemented to ensure the maintenance of an adequate record verifying the attendance of all children at instruction in accordance with Education Law §§320 and establishes a mechanism by which the patterns of pupil absence can be examined to develop effective intervention strategies to improve school attendance.
- b) It shall be the responsibility of the Superintendent of Schools to prepare and the Board of Education to enact appropriate rules and regulations to monitor and record the attendance of all children.
- c) The New Lebanon Central School District Board of Education, in accordance with the State Education Law requires that each minor in the District regularly attends school full-time from the first day of session in September of the school year in which the minor becomes six (6) years of age through the last day of the school year in which such minor becomes sixteen (16) years of age, unless he/she has successfully completed all requirements for a high school diploma. Any District resident who is under 21 years of age, who has not received a high school diploma, is entitled to attend the New Lebanon Central School District without payment of tuition. The student may attend a school other than a public school or receive home instruction, provided the instruction is equivalent to that provided in the public schools.

Strategies to be Employed

The District will employ the following strategies to ensure good attendance of all of its students:

- a) An attendance policy and appropriate recordkeeping mechanisms to ensure that the attendance of all students is tracked and analyzed.
- b) Mechanisms to intervene on the individual student level when a student's attendance record demonstrates a need for improvement.
- c) Incentives to encourage good attendance and improve the attendance of all District students.

Excused and Unexcused Absences

Appropriate Grounds for Excused Absences or Tardiness

The student and his/her parent or person in parental relation are responsible for providing written notification of the reason for such absences upon the student's return to school. Whenever possible,

parents or persons in parental relation are encouraged to contact the school in writing or by telephone prior to the absence. The following list represents legal and appropriate bases for being absent from school or tardy.

Excused Absences/Tardies

The following is a list of possible reasons for a student's absence/tardy to be excused:

- a) student illness
- b) illness or death in the student's family
- c) late bus arrival due to unsafe travel conditions
- d) religious observance
- e) appointment with a physician or other health care provider when appointments cannot be scheduled beyond the school day (documented)
- f) medical quarantine of the student
- g) required court appearance by the student or other legal matters
- h) college visit with prior approval of the administration
- i) school related activities (field trip, presentation/competition of another school, etc.)
- j) academic examination
- k) family/school crisis
- l) any other absence excused at the discretion of the Superintendent

Unexcused Absences/Tardies

An absence or tardy from school for any reason other than those listed above shall be considered unexcused.

The District will not accept parental requests to excuse their child from school for reasons not included above (e.g., to take a driver's test, to get a haircut, to go shopping, to go on a family trip, or not stating a specific reason). Excuses that a student "overslept" or had "car trouble" are also unacceptable and will constitute an unexcused absence or tardy.

Absences for reasons set forth above for which a student does not have pre-approval from the School Principal or for which the student does not provide an appropriate note or documentation within three (3) school days of his/her return to school will also be recorded as an unexcused absence.

Recordkeeping

- a) The school nurse will be responsible for: collecting written excuses for absences; determining legal and illegal absences according to the above section of this policy; and filing excuses for absences in a student's folder.

COMPREHENSIVE STUDENT ATTENDANCE POLICY

The student's parent/guardian or the student (if he/she is legally emancipated) shall be responsible for notifying the school of the student's absence on each day the student is not in attendance. Such notification shall be made to the school nurse by 9 a.m. at the Jr./Sr. High School and by 10 a.m. at the Walter B. Howard Elementary School on the day the student is absent. The school nurse will make daily contact with the student's parents/guardians regarding the student's absence (excused/unexcused) if it has not been reported by these times.

b) When attendance will be taken:

1. At the Walter B. Howard Elementary School, attendance shall be taken each morning at the beginning of the school day.

The classroom teacher will indicate all absent and tardy students on the student management system. The classroom teacher will also send all absence notes to the main office. The classroom teacher is responsible for notifying the school nurse of a mistake in attendance.

A record of individual student tardiness including time of arrival will be maintained in the Nurse's office. The classroom teacher will indicate absences and tardiness on each student's report card.

2. At the Jr./Sr. High School attendance shall be taken at the beginning of each scheduled period. Each teacher/supervisor shall record the students' presence or absence and shall report all absences or tardies in the student management system.

- c) Contacting parents.** If no parent or person in parental relation is home, the District will contact a parent or person in parental relationship at their place of employment. In both situations, if contact is not made with a parent or person in parental relation, a message will be left for the parent or person in parental relation.
- d) Each student's attendance record shall include the following information:** name, date of birth, names of parents or persons in parental relation; address where student resides; phone numbers where parents or persons in parental relation can be reached; date of enrollment; a record of the student's attendance on each day of scheduled instruction recorded in conformity with the student management Codes shown below; a record of each scheduled day of instruction during which the school is closed for all or part of the day due to extraordinary circumstances.

- a) The parents were not legal residents of the School District on the opening day of school, and
- b) The child has been registered and enrolled in kindergarten in the district in which his/her parents were legal residents.

Other Grades

Admission of children to other grades shall involve a consideration of both chronological age and the readiness of the children to do the work of those grades.

EDUCATION OF HOMELESS CHILDREN AND YOUTH

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Article 19-H of the Executive Law, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Pursuant to Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

- a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;
- b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- c) Abandoned in hospitals;
- d) Awaiting foster care placement; or
- e) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" *includes* a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding 36 months, in order to obtain, or accompanies such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work.
- f) A child or youth who has a primary nighttime location that is:
 - 1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Article 19-H of the Executive Law; or
 - 2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

NL Policy

EDUCATION OF HOMELESS CHILDREN AND YOUTH

- g) Considered an "unaccompanied youth":
 - 1. An unaccompanied youth is a homeless child (for whom no parent or person in parental relation is available) or youth not in the physical custody of a parent or legal guardian.
 - 2. An unaccompanied youth **shall not include** a child or youth who is residing with someone other than a parent or legal guardian for the sole reason of taking advantage of the schools of the district.

The term "**homeless child**" **shall not include** a child in foster care or receiving educational services pursuant to Education Law Sections 3202(4), (5), (6), (6a) or (7) or pursuant to Articles 81, 85, 87 or 88. For example, a child in a family home at board, a school for the mentally retarded, a hospital or other institution for the care, custody and treatment of children; youths under the direction of the Division for Youth incarcerated in county correctional facilities or youth shelters; or children residing in child care institutions or schools for the deaf or blind would not be considered "homeless."

Enrollment, Retention and Participation in the Educational Program

Enrollment of homeless children shall not be delayed and their ability to continue or participate in the educational program shall not be restricted due to issues such as:

- a) Transportation;
- b) Immunization requirements;
- c) Residency requirements;
- d) Birth certificates, medical records, individualized education programs (IEPs), school records and other documentation;
- e) Guardianship issues;
- f) Comprehensive assessment and advocacy referral processes;
- g) Resolution of disputes regarding school selection;
- h) Proof of social security numbers;
- i) Attendance requirements;

- j) Sports participation rules;
- k) Inability to pay fees associated with extracurricular activities such as club dues and sports uniforms; or
- l) Other enrollment issues.

Educational Programs and Services

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services must be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds must expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines, that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

All homeless children and youth are automatically eligible for Title I Part A services whether or not they meet the academic standards or live in a Title I school attendance area. Homeless students may receive Title I educational or support services from school wide and targeted-assistance school programs.

Transportation

If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for the provision and the cost of the student's transportation. Where a homeless student designates the school district of current location as the district the student will attend, that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin, or a school district participating in a regional placement plan, then that district must provide transportation to and from the homeless child's temporary housing and school.

NL Policy #

5151d

EDUCATION OF HOMELESS CHILDREN AND YOUTH

Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Transportation must be provided during the pendency of enrollment disputes. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

School District Liaison for Homeless Children and Youth

The School District shall designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as enumerated in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

Training

The District will train all school enrollment staff, secretaries, school counselors, school social workers, and principals on the legal requirements for enrollment. School nutrition staff, school registered professional nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

Outreach

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

Dispute Resolution

The District shall establish guidelines for the prompt resolution of disputes regarding school selection or enrollment of a homeless student and provide a written explanation, including a statement regarding the right to appeal to the parent or guardian if the School District sends the student to a school other than the school of origin or the school requested by the parent or guardian.

If there is a factual dispute over whether a student is homeless, the District will immediately enroll the student and then provide the parent/guardian the opportunity to submit verification of homelessness. The student will remain enrolled until a final determination is made by the District and

for a minimum of thirty (30) days after the final determination to allow the parent/guardian opportunity to appeal to the Commissioner of Education. If the student files an appeal that contains a request for a stay within thirty (30) days of such final determination, the District must continue to enroll the student until the Commissioner rules on the stay request.

Record and Reporting Requirements

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five (5) days.

The School District shall maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District shall collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

NON-RESIDENT STUDENTS

School districts were founded for the purpose of providing at least minimum State mandated education for school-age youth who reside within the boundaries of the districts. Finances for the cost of this education are collected from property owners within the boundary line, and assistance is also provided by the State. Each school-age resident of the State lives within the confines of one particular school district. It is the obligation of that district to provide basic education for him/her.

The Board of Education affirms that its primary responsibility is to provide the best possible educational opportunities for the children who are legal district residents and who are of legal age to attend school. Non-resident students, for the purposes of this policy, denote a student who has not established legal residence in the District and is not covered by a specific agreement and/or special provisions made for the student with other School Boards of Education.

Acceptance of non-resident students

I. Tuition

Effective immediately, no new non-resident students will be accepted in the District upon payment of tuition by the parent(s) or guardian(s). Any non-resident students who are already enrolled in the District may remain enrolled up to graduation, subject to the following conditions:

- a) There is sufficient space to accommodate the non-resident student;
- b) No increase in the size of faculty or staff will be necessary to accommodate them;
- c) The admission of such non-resident student is and continues during the enrollment period to be in the best interests of the District.
- d) All rules and regulations in effect for District students will be applicable to non-residents students; and
- e) School and class placement of a non-resident student admitted to attend in the District shall be determined solely by the Superintendent or designated District administrative personnel.

II. Without Tuition

A non-resident student may be admitted to District schools without paying tuition under one of the following conditions:

NL Policy #

5152b

- a) A student whose parents intend to become residents of the New Lebanon Central School District within six (6) weeks of the beginning of the school year in which the enrollment is sought may enter the school tuition free if they can provide bona fide evidence of their intent (i.e., sales contract, deed, etc.). The parent must designate a resident family to serve in loco parentis if requested by the Board of Education. The parent assumes full responsibility for transportation of the student to and from the nearest established bus stop;
- b) A student who moves from the District during or immediately preceding his/her anticipated graduation year may be given permission to remain in the New Lebanon Central School District on a non-tuition basis until graduation. If requested by the Board of Education, parents of the student shall designate a resident family to serve in loco parentis. Parents assume full responsibility for transportation of the student to and from the nearest established bus stop; or
- c) Students of any grade level who move from the New Lebanon Central School District after the first twenty-four (24) weeks of the school year may be given permission to finish the year in which the move occurs tuition free. If requested by the Board of Education, parents of the student shall designate a resident family to serve in loco parentis. Parents assume full responsibility for transportation of the student to and from the nearest established bus stop.

Non-resident families must provide their own transportation.

III. Employees

Employees who reside out of the District and wish to enroll their child(ren) in the District shall be permitted to do so on a non-tuition basis and in accordance with this policy. Transportation of the children to and from school shall be the responsibility of the employee.

Applications for admission of non-resident students

- a) In all cases described above and any unusual circumstances not covered above, a written request must be submitted to the Superintendent.
- b) Applications by or on behalf of admission of a non-resident student to attendance upon instruction in the District shall be made to the Superintendent of Schools;
- c) Such application shall be made at least 30 days prior to the start of the semester, if the applicant wishes attendance in that semester;
- d) Application for admission other than at the start of the semester shall be made at least 30 days prior to the date on which attendance, if admitted, would commence, or as soon before the desired start date as possible.

Foreign students

Foreign students participating in a recognized Student Exchange Program under a J-1 Visa may attend District schools tuition free upon approval of the Superintendent if the "host" family resides in the District. Foreign students who are staying with a host family in the District under any circumstances other than a recognized and approved student exchange program may attend with the approval of the Superintendent and exclusively on a full non-resident tuition basis. The administration is authorized to file with the U.S. Department of Homeland Security the forms necessary for the monitoring of non-immigrant foreign students during the course of their stay in the District in accordance with the Student and Exchange Visitor Information System (SEVIS).

Tuition

Tuition fees for non-resident students shall be established annually by the Board of Education pursuant to the Commissioner's Regulation:

1. The first payment due by August 15th of each year, the second payment due by November 15th, the third payment due by January 15th and the final payment due by April 15th or fractional part thereof, depending upon the date of admission.
2. The person in parental relation to the student, or if the student is emancipated, the student will be billed in August. The timing of other billing to such person will depend on the date of the student's first attendance in the district, and the tuition charge will be prorated on a daily basis; and
3. All tuition payments will become due before the service is provided.

Continuation as non-resident student

Upon evidence of satisfactory achievement, a non-resident student admitted to attendance upon instruction in the District shall be permitted to continue in the school's program as long as:

- a) Transportation outside the District remains the responsibility of the parent or person(s) who is the legal guardian of the student;
- b) The student's scholastic achievement is commensurate with the expectations of the program in which the student is enrolled;
- c) The student meets the District's standards of conduct for students; and

NL Policy #

5152d

- d) The student's attendance upon instruction in the District does not create the need to employ additional staff, or cause class size to increase beyond what is desirable, or create stress on the use of facilities in the District.

It shall be the responsibility of any non-resident student accepted as a student in the District to meet all academic and disciplinary standards of the District. A non-resident student accepted as a student in the District shall be wholly subject to the student disciplines and conduct codes, and may be disciplined pursuant to Education Law as if she/he were a resident student.

A violation of any of these conditions may cause the Board to terminate the non-resident student's student status in the District.

The one (1) hour per week shall include reasonable transportation time. Notwithstanding the foregoing, the New Lebanon Board of Education, in its discretion, for units (K-3; 4-6; 7-9; 10-12) that are departmentalized, direct they be released for not more than one (1) hour per week in groups that may include less than whole units, at such times and upon such conditions as the Board of Education may deem proper. STUDENT ORGANIZATIONS

The Board of Education recognizes the educational values inherent in student participation in the extracurricular life of the school, and supports the concept of the formation of student groups for such purposes as building sound social relationships, developing interests in an academic area, and gaining an understanding of the elements and responsibilities of good citizenship.

Student groups may not restrict membership on the basis of race, sex, national origin or other arbitrary criteria.

The Board may prohibit the formation of any clubs, including fraternities or sororities, or any other secret society, whose deliberations and activities have caused or created, or are likely to cause or create, a disruption of or interference with the school program.

Administrative regulations governing the use of school facilities shall abide by the Equal Access Act in the creation of a "limited open forum." All noncurricula-related student activities, regardless of religious or political content, shall have the same opportunities as any other such activity to operate on school grounds.

SCHOOL SPONSORED STUDENT EXPRESSION

The Board of Education encourages student expression in its many forms, including the yearbook, literary magazine, concerts, shows and art exhibits. The Board believes these activities are an important part of student learning and enrich the life of the school community. Each school-sponsored activity offers unique opportunities for students to engage in creative and educational modes of expression.

All school-sponsored opportunities for student expression will comply with the rules set forth in this policy and in the Code of Conduct. Libelous statements, unfounded charges and accusations, obscenity, false statements; materials or performances advocating or expressing prejudice, hatred, discrimination, harassment, bullying or violence on the basis of a protected class (e.g., actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (including gender identity and gender expression), or sex), the breaking of laws and school policies and/or regulations; or materials or performances designed to disrupt the educational process will not be permitted.

In addition, the school-sponsored activities listed above are not considered public forums. In such cases, the Board reserves the right to edit or delete such student expression which it believes is inconsistent with the district's basic educational mission.

Procedural Due Process

When a student(s) presents material for inclusion in a school-sponsored publication to a school official with authority over the school publication, the school official must review and make a decision on inclusion in the publication within two (2) school days of submission of the material to him/her. If publication is denied, the student(s) may appeal the decision to the Building Principal. If the principal agrees with the decision to withhold approval, the principal must state the reasons in writing and provide the students with a copy of the reasons within two (2) school days of the receipt of the appeal. The aggrieved student(s) may within two (2) school days appeal in writing to the Superintendent of Schools. The Superintendent of Schools must issue a written decision within two (2) school days after receiving the appeal.

Adoption date: 9/19/18

NL Policy

5225a

STUDENT PERSONAL EXPRESSION

The Board of Education recognizes the importance and value of student personal expression and recognizes that students do not “shed their constitutional rights to freedom of speech or expression at the schoolhouse gate” (see the *Tinker v. Des Moines* case). As in broader American society, the Board also understands that there is a balancing of an individual’s rights under the First Amendment with the rights of the community. Student personal expression in this context refers to student verbal and written communication using any medium (paper, e-mail, social media or website postings, etc.) including, but not limited to, poetry, prose, art, video and music composition that is intended to be shared with the broader school community, or other actions taken to express viewpoints such as demonstrating or protesting.

Although students generally retain their right to free expression in school, that right is not unfettered. School officials may regulate expression as to time, place and manner. Students’ expression which either is forecasted to cause or actually causes a substantial disruption and/or which materially interferes with school activities or rights of others is not constitutionally protected speech. Moreover, personal expression which involves threats or bullying/harassment of students and is directly connected to school or its activities is also not constitutionally protected speech.

Distribution of Materials

When students wish to personally express themselves in the broader school community by distributing materials, they must seek prior approval from the building principal or designee. The building principal or designee will render a decision within two school days of receiving the request. The building principal shall give due consideration to the constitutionally protected right of freedom of expression, the maintenance of the normal operation of school and its activities, the protection of persons and property and the need to assist students in learning appropriate ways to exercise their rights. Unless such student expression takes place within the confines of a school-sponsored event/activity (see policy 5220 for guidance on School-Sponsored Student Expression), authorization will be granted if:

- The material is distributed as directed by the Principal or designee in such a manner as to not materially or substantially interfere with the rights of others or substantially disrupt the normal operation of the school;
- The material is not considered to be obscene, lewd, indecent, libelous, an invasion of the privacy of other individuals, or an expression that attacks a person’s character, family, or actual or perceived race (including traits historically associated with race, including, but not limited to, hair texture and protective hairstyles such as but not limited to braids, locks, and

NL Policy

5225b

- twists), color, religion, religious practice, age, weight, sex, ethnic group, national origin, physical appearance, sexual orientation, gender (including gender identity or gender expression) or disabling condition.
- The material is free from advertisements or promotion of cigarettes, liquor, illegal or illicit drugs, or drug paraphernalia or other products or services harmful to minors and/or not permitted to minors by law, or advocating breaking laws and school policies and/or regulations.

Procedural Due Process

Students seeking to distribute material within school buildings or at school events, must present such material for prior review by the Building Principal who must make a decision regarding distribution within two (2) school days of receipt of the request and the provide the reason for the denial in writing. The aggrieved student(s) may within two (2) school days appeal in writing to the Superintendent of Schools. The Superintendent of Schools must issue a written decision within two (2) school days after receiving the appeal.

Off-Campus Student Expression

Generally, school administrative authority regarding student expression does not extend beyond school grounds or school-sponsored functions. However, with today's technologies, the line between off and on campus expression can be blurred. The First Amendment does not protect students from engaging in off campus personal expression which is forecasted to cause or actually causes substantial disruption or material interference with school activities or interrupts another individual's access to school, such threatening or bullying/harassing of others in the school community. Such conduct may subject the student to discipline under the Code of Conduct.

Student Demonstrations and Protests

Students maintain their constitutional right while they are in school, or at school sponsored events, to peacefully assemble. However, the district may take reasonable actions to maintain a safe and functioning learning environment, to ensure that the school environment is not materially disrupted. Accordingly, school officials maintain the authority to limit student demonstrations which result in materially disrupting the operation of the schools' educational process. In addition, the school may deem student absences from school or class to demonstrate or protest to be unexcused under the district's Attendance policy (#5100), and those absences may result in consequences under that policy.

NL Policy #

5225c

The district may also plan and host its own events to address issues of student and school concern.

Violation of Policy

Students who violate this policy will be subject to the appropriate disciplinary action, which may include short or long-term suspension, in accordance with the Code of Conduct.

SOLICITATION OF CHARITABLE DONATIONS FROM SCHOOL CHILDREN

Fund raising projects in which students sell merchandise, provide services, or in other ways solicit money for school activities may be sponsored by school organizations with the express approval of the Building Principal. Any such plan shall have a clearly defined purpose and, in general, shall contribute to the educational experience of students and shall not conflict with instructional programs or state mandates.

Profits shall be used to enhance school programs by providing money for expenditures not normally funded by the District.

All participation shall be voluntary.

Employees are cautioned against giving the impression to students that the purpose of selling items (e.g., "scratch off" cards, holiday wrappings, etc.) or paying a fee is to defray a portion of the District's educational program. At no time should a student's participation in an educational activity include such sales or fees. In addition, it is imperative that employees or Board appointed volunteers not deposit the proceeds of any legitimate sales activity in their own personal accounts. These activities may jeopardize a student's right to participate in the educational program on a tuition and/or fee-free basis. Further, employees engaged in such activities may be held personally liable.

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

However, this policy does not prevent the following types of fund raising activities:

- a) Fund raising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;
- b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited as the purchaser will receive consideration - the concert or social event - for the funds expended;
- c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money. However, collection of charitable contributions of food, clothing, other goods or funds from students in the classroom or homeroom is prohibited.

The Administration shall ultimately decide which organizations, groups, etc. can solicit charitable donations and for what purposes, as long as the activities comply with the terms of this policy and the Rules of the Board of Regents.

STUDENT ACTIVITIES FUNDS MANAGEMENT

The Board of Education shall have the responsibility for the protection and supervision of the financial affairs of student clubs and extracurricular activities. The Superintendent will recommend and the Board will appoint a competent and qualified faculty advisor for each club or organization. The Board will appoint an extra-curricular accounts treasurer for the management of the funds associated with these clubs and organizations at the annual board organizational meeting.

Each student organization will designate a student treasurer in conformance with policy 5210.

Prior to termination of a student organization, all funds remaining in the treasury must be disposed of in one of the following ways:

- Expended by a majority vote of the organization, as provided for in its bylaws.
- Transferred to another student organization or for another purpose, as determined by the membership of the student organization

If no action is taken by the student organization, leftover funds of inactive or discontinued extraclassroom activities and of graduating classes shall automatically revert to the account of the general student organization or student council.

Financial transactions will be carried out in conformance with district policies and procedures. An audit of all accounts will be made annually by the independent/external auditor.

INTERSCHOLASTIC ATHLETICS

Interscholastic athletics for boys and girls is an integral and desirable part of the district's secondary school educational program. Individual and team sports shall be based upon comprehensive physical education instruction and intramural activities, seeking broad participation from all eligible secondary students. Lifetime or carry-over sports are to be particularly encouraged and supported. Parity in the number and kind of sports activities for girls and boys is a clear objective of the district.

Student eligibility for participation on interscholastic teams shall include:

1. authorization by the school physician;
2. written parent or guardian consent (the written consent will contain information for parents on mild traumatic brain injury (TBI) and will provide a link to the State Education Department's web page on TBI); and
3. endorsement by the Building Principal based on established rules and various league and State Education Department regulations.

Although the district will take reasonable care to protect student athletes, students may still sustain injuries. In order to most effectively ensure student safety, open communication between students, parents and coaches about the child's medical condition is critical. Coaches, and other appropriate staff, will receive guidance and training regarding recognition of injury and removal of the student athlete from play in the event of injury. Parents and/or students are expected to report injuries so that student health can be protected.

In the case of a suspected or actual head injury, a student must be removed from play immediately. In order to resume participation following injury, including head injury, the student needs to receive medical clearance. The Superintendent, in consultation with appropriate district staff, including the school physician, will develop regulations and procedures to guide the process of return to play.

In recognition of the importance of appropriately managing head injuries, the Board authorizes the creation of a Concussion Management Team (CMT). The CMT will be comprised of the athletic director, a school nurse, a coach of an interscholastic team, and other appropriate personnel designated by the Superintendent. CODES OF CONDUCT ON SCHOOL PROPERTY

The Board of Education is committed to providing a safe and orderly school environment where students may receive and district personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other district personnel, parents and other visitors is essential to achieving this goal.

The district has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity.

The Board recognizes the need to clearly define these expectations for acceptable conduct on school property, identify the possible consequences of unacceptable conduct, and to ensure that discipline, when necessary, is administered promptly and fairly. To this end, the Board, on a yearly basis, reviews and adopts Codes of Conducts for Walter B. Howard Elementary School, New Lebanon Jr/Sr High School and athletics. These documents comprise the New Lebanon District Codes of Conduct.

STUDENT WELLNESS

Given the documented connection between proper nutrition, adequate physical activity and educational success, the Board of Education adopts the following goals and authorizes the following actions to provide district students with a school environment that promotes student health and wellness and reduces childhood obesity.

For purposes of this policy, “school campus” means all areas of district property accessible to students during the school day; “school day” means the period from the midnight before to 30 minutes after the end of the official school day; and “competitive food” means all food and beverages other than meals reimbursed under federal food programs available for sale to students on the school campus during the school day.

I. Foods and Beverages Available for Sale to Students on School Campus During the School Day

The Board recognizes that a nutritious, well-balanced, reasonably-portioned diet is essential for student wellness. To help students possess the knowledge and skills necessary to make nutritious food choices for a lifetime, the district shall ensure that all foods and beverages available in school promote good nutrition, balance, and reasonable portion sizes. The district shall ensure that all foods and beverages available for sale to students on the school campus during the school day meet or exceed the program requirements and nutrition standards found in federal regulations.

To accomplish this, the Board directs that the district serve healthy and appealing foods and beverages at district schools, following state and federal nutrition guidelines, as well as safe food preparation methods.

School Meals – the district shall:

1. Include fruits, vegetables, salads, whole grains, and low fat items at least to the extent required by federal regulations.
2. Encourage students to try new or unfamiliar items.
3. Make efforts to ensure that families are aware of need-based programs for free or reduced-price meals and encourage eligible families to apply.
4. Consider serving produce and food from local farms and suppliers.
5. Make free drinking water available at locations where meals are served.

Meal Scheduling – the district shall:

1. Provide adequate time to eat.
2. Schedule lunchtime between 10am and 2pm.

STUDENT WELLNESS

Foods and Beverages Sold Individually (e.g., a la carte, vending machines, school stores) – the district shall:

1. Require that all such items meet the nutrition standards set in federal regulations for competitive foods regarding whole grains, fruits, vegetables, calories, fat, saturated fats, trans fats, sugar, sodium, and caffeine.
2. Permit the sale of fresh, frozen or canned fruits and vegetables, if processed pursuant to federal regulations, as exempt from the nutrition standards.
3. Work with existing vendors or locate new vendors that will comply with nutrition standards.

Fund-Raising Activities – the district shall:

1. Require that all fundraisers selling food or beverages to students on school campus during the school day meet the nutrition standards set in federal regulations for whole grains, fruits, vegetables, calories, fat, saturated fats, trans fats, sugar, sodium, and caffeine.
2. Promote non-food items to sell, or activities (physical or otherwise) in which to participate.

At school and class parties, celebrations and events where food and beverages are provided but not sold, the districts shall:

1. Set guidelines for the frequency and content of classroom and school-wide celebrations where food and beverages are provided.
2. Promote the use of food and beverage items which meet the standards for competitive foods and beverages, and promote non-food activities, and discourage foods and beverages which do not meet those standards, at celebrations.
3. Model the healthy use of food as a natural part of celebrations.

II. Physical Activity

Physical activity is an important factor in staying healthy and being ready to learn. The Board encourages every student to develop the knowledge and skills necessary to perform a variety of physical activities, to regularly participate in physical activity, and to appreciate and enjoy physical activity as an ongoing part of a healthy lifestyle. In addition, staff, families, and community are encouraged to participate in and model physical activity as a valuable part of daily life. The district's Physical Education program shall adhere to the curricular requirements of the Commissioner of Education and the New York State Learning Standards.

2. Recess will be held outdoors whenever possible, and indoors during the most inclement weather at the discretion of the principal.

Extracurricular Opportunities for Physical Activity

1. Promote clubs and activities that meet the various physical activity needs, interests, and abilities of all students.

The District Wellness Coordinator shall report biennially to the Board and the public on the implementation and effectiveness of this policy. Every three years the District Wellness Coordinator, in consultation with the Health and Safety Committee, shall monitor and review the district's wellness activities to determine the extent that district schools are complying with this policy, how this policy compares to model wellness policies and the progress made toward attaining the goals of this policy. STUDENT HEALTH SERVICES

The Board of Education recognizes that good student health is vital to successful learning and acknowledges its responsibility, along with that of parent(s) or guardian(s), to protect and foster a safe and healthful environment for the students.

The school shall work closely with students' families to provide detection and preventive health services. In accordance with law, the school will provide vision, hearing, dental inspection and scoliosis screening. Results shall be referred to the parent(s) or guardian(s) who shall be encouraged to have their family physician/dentist provide appropriate care.

In order to enroll in school a student must submit a health certificate within 30 calendar days after entering school, and upon entering prekindergarten or kindergarten, and first, third, fifth, seventh, ninth and eleventh grades. The examination, which must conform to state requirements, must have been conducted no more than 12 months before the first day of the school year in question. If a student is unable to furnish the health certificate, the school will provide a physical examination by a licensed provider. A request for exemption from the physical examination, or the requirement to provide a health certificate, must be made in writing to the school principal or designee, who may require documents supporting the request. The only basis for exemption is a claim that the physical examination is in conflict with the parent or guardian's genuine and sincere religious belief.

In order to enroll in school, students must also furnish documentation of required immunizations against certain communicable diseases, as set forth in state law and regulations, unless exempted from immunizations for medical reasons as permitted by state law and regulation.

Homeless students shall be admitted to school even if they do not have the required health or immunization records, but may be temporarily excluded if they show actual symptoms of a communicable disease that poses a significant risk of transmission to others (see "Communicable Diseases" below).

The Board recognizes that the State of New York may authorize and require the collection of data from health certificates in furtherance of tracking and understanding health care issues that affect children. The Board supports these efforts and expects administrators to cooperate and to observe the appropriate laws and regulations in carrying out those responsibilities, including those that relate to student privacy.

NL Policy #

STUDENT HEALTH SERVICES

In addition, students will be asked to provide a dental health certificate when they enroll in school and in accordance with the same schedule as the health certificate.

A permanent student health record shall be part of a student's cumulative school record and should follow the student from grade to grade and school to school along with his/her academic record. This record folder shall be maintained by the school nurse.

Emergency Care

Each school in the district will include in its emergency plan a protocol for responding to health care emergencies, including anaphylaxis, and head injury. Parents/guardians will be notified of any emergency medical situation as soon as is practicable. Parents/guardians will receive notification of non-emergent medical situations that have been reported to the nurse in a timely manner.

Schools shall also provide emergency care for students in accidental or unexpected medical situations. The district will stock epinephrine auto-injectors for non-patient specific use. The district shall ensure that designated staff are appropriately trained. The district permits emergency administration of opioid antagonists, such as naloxone, by trained responders and/or the school nurse to prevent opioid overdose.

Communicable Diseases

It is the responsibility of the Board to provide all students with a safe and healthy school environment. To meet this responsibility, it is sometimes necessary to exclude students with contagious and infectious diseases, as defined in the Public Health Law, from attendance in school. Students will be excluded during periods of contagion for time periods indicated by the county health department.

During an outbreak of these communicable diseases, if the Commissioner of Health or his/her designee so orders, the district will exclude students from school who have an exemption from immunization or who are in the process of obtaining immunization.

It is the responsibility of the Superintendent of Schools, working through district health personnel, to enforce this policy and to contact the county or local health department when a reportable case of a communicable disease is identified in the student or staff population.

Administering Medication to Students

Neither the Board nor district staff members shall be responsible for the diagnosis or treatment of student illness. The administration of prescribed medication to a student during school hours shall be permitted only when failure to take such medicine would jeopardize the health of the student, or the student would not be able to attend school if the medicine were not made available to him/her during school hours, or where it is done pursuant to law requiring accommodation to a student's special medical needs (e.g., Section 504 of the Rehabilitation Act of 1973). "Medication" will include all medicines prescribed by a physician.

Before any medication may be administered to or by any student during school hours, the Board requires:

1. the written request of the parent(s) or guardian(s), which shall give permission for such administration and relieve the Board and its employees of liability for administration of medication; and
2. the written order of the prescribing physician, which will include the purpose of the medication, the dosage, the time at which or the special circumstances under which medication shall be administered, the period for which medication is prescribed, and the possible side effects of the medication.

Students are allowed to carry and apply parentally provided sunscreen without a prescription from a medical provider, assuming that the sunscreen is FDA approved and that the sunscreen is not treating a medical condition. Parents need to provide the district with written permission for students to use sunscreen.

Permission slips and medical orders shall be kept on file in the office of the school nurse.

Life-Threatening Allergies and Anaphylaxis Management

The Board recognizes its role and responsibility in supporting a healthy learning environment for all students, including those who have, or develop, life-threatening allergies. The district will work cooperatively with the student, their parent/guardian and healthcare provider to allow the child to participate as fully and as safely as possible in school activities. When a student has a known life-threatening allergy reported on their health form or if the district has been informed by the parent of the presence of a life-threatening allergy, the district will assemble a team, which may include the

parent, the school nurse, the child's teacher, the building principal and other appropriate personnel, which will be charged with developing an individual health care plan. The plan will be maintained by the school nurse. The plan will guide prevention and response. If the student is eligible for accommodations based upon the IDEA, Section 504 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding identification, evaluation and implementation of accommodations.

Training

Training to support the fulfillment of staff responsibilities in regard to student health services will be provided as part of the district's ongoing professional development plan and in conformity with Commissioner's regulations.

Regulations

The Superintendent shall develop comprehensive regulations governing student health services. Those regulations shall include the provision of all health services required by law, procedures for the maintenance of health records, and procedures for the administering of medication to students. The Superintendent shall also develop protocols, in consultation with the district medical director and other appropriate district staff, for the management of injury, with particular attention to concussion.

NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well-being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to building principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable building principal/designee or supervisor. This information will be available to community residents upon written request to the District Office.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law.

CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

The Board of Education recognizes that because of their sustained contact with school-aged children, employees are in an excellent position to identify abused, maltreated or neglected children and refer them for treatment and protection. The Board further recognizes the specific dictates of law which require school officials to report suspected instances of child abuse, maltreatment (which includes neglect) in a domestic setting.

The purpose of mandatory reporting is to identify suspected abused and maltreated children as soon as possible, so that such children determined to be abused or maltreated can be protected from further harm and, where appropriate, can be offered services to assist him or her and his or her family.

School officials, who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment, must immediately report this to the New York State Central Register for Child Abuse and Maltreatment (Central Register), as required by law. No conditions may be imposed which limit their responsibility to report. A school official is defined as:

- Teacher
- Guidance counselor
- Psychologist
- Nurse
- Social Worker
- Full or part-time paid athletic coach
- Administrator
- Any school personnel required to hold a teaching or administrative license or certificate.

The school official will also report the matter to the Building Principal.

The report shall be made by telephone or by telephone facsimile machine on a form supplied by the Commissioner of Social Services. A written report shall be made within forty-eight hours to the appropriate local child protective service, and to the statewide Central Register.

School employees who are not school officials, as defined above, but who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment are encouraged to report to the Central Register. However, the school employee must report the matter to the Building Principal. If the matter has not yet been reported to the Central Register, the Building Principal shall make the report, in accordance with state law. In being required to file such report, the Building Principal does not have discretion.

NL Policy #

5460b

CHILD ABUSE, MALTREATMENT OR NEGLECT IN A DOMESTIC SETTING

School employees or officials may not contact the child's family or any other person to determine the cause of the suspected abuse or maltreatment. It is not the responsibility of the school official or employee to prove that the child has been abused or maltreated.

Any school official or employee who has cause to suspect that the death of any child is a result of child abuse or maltreatment must report that fact to the appropriate medical examiner or coroner.

In accordance with the law, any school official who fails to report an instance of suspected child abuse or maltreatment may be guilty of a Class A misdemeanor and may be held liable for the damages caused by the failure to report. The law grants immunity to persons who, in good faith, report instances of child abuse from any liability.

School employees will not be subject to retaliatory action, as defined in state law, as a result of making a report when they reasonably suspect that a child has been abused or maltreated.

The Board recognizes that knowingly reporting a false claim of child abuse is a violation of state law and this policy acknowledges that it is a crime to do so. The district will make every reasonable effort to ensure the integrity of the district's child abuse reporting process and procedure.

School District Relationship with Local Social Service District

The school district will cooperate to the extent possible with authorized child protective services workers in investigations of alleged child abuse. The Superintendent, or his or her designee, will represent the district when collaborating with local social service agencies to address instances of abuse or maltreatment, and in the development of policy and procedures regarding abuse or maltreatment (including educational neglect). In addition, the Superintendent will share a copy of the district's attendance policy, 5100, with the local social service district.

Child Protective Services Investigations

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to local child protective services workers, or members of a multi-disciplinary team accompanying such workers, who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

NL Policy #

5460c

All requests by child protective services to interview a student on school property must be made directly to Principal or designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district's procedures for visitors, provide identification, and identify the child(ren) to be interviewed.

The Principal or designee will decide if it is necessary and appropriate for a school staff member, including but not limited to an administrator or school nurse, to observe the interview either from inside or outside the interview room.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if they were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

Training Program and Dissemination of Information

The school district will maintain an ongoing training program for all current and new school officials which will address the identification (i.e., signs and indicators) and reporting of child abuse, maltreatment, and neglect, including the legal implications of reporting and not reporting. Attendance at sessions of this training program is required of all school officials. Attendance records will be kept, and notations will be made in personnel files as to the dates of attendance.

The Superintendent will develop, with input from appropriate personnel, a plan for implementation of such a training program, to be approved by the Board. In addition, the policy and regulations will be included in all employee handbooks and distributed annually to all school officials who are not covered under existing handbooks. The Superintendent will prepare and implement all regulations as are necessary to accomplish the intent of this policy

As required by state law and regulation, the district will publicize the toll-free number for reporting child abuse and neglect to the Central Register (800-342-3720), and directions for accessing the NYS Office of Children and Family Services website (<http://ocfs.ny.gov/main/cps/>), in both English and Spanish.

As part of this responsibility, the Board will ensure that eligible students and parents/guardians have the right to inspect and review education records, the right to seek to amend education records and the right to have some control over the disclosure of information from the education record. The procedures for ensuring these rights shall be consistent with state and federal law, including the Family Educational Rights and Privacy Act of 1974 (FERPA) and its implementing regulations.

STAFF-STUDENT RELATIONS (FRATERNIZATION)

The Board of Education requires that all School District employees maintain a professional, ethical relationship with students that is conducive to an effective, safe learning environment. Staff members should act as role models for students at all times, whether on or off school property, both during and outside of school hours, and when using publicly accessible electronic and social media. Staff must establish appropriate personal boundaries with students and not engage in any behavior that could reasonably lead to even the appearance of impropriety or offering an unfair advantage to an individual student.

Staff members are prohibited, under any circumstances, to date or engage in any improper fraternization or undue familiarity with students, regardless of the student's age and/or regardless of whether the student may have "consented" to such conduct. Further, employees shall not entertain students or socialize with students in such a manner as to create the perception that a dating relationship exists. Similarly, any action or comment by a staff member which invites romantic or sexual involvement with a student is considered highly unethical, in violation of District policy, and may result in the notification of law enforcement officials, the State Education Department and/or Child Protective Services and the filing of criminal charges and/or disciplinary action by the District up to and including termination of employment.

Inappropriate employee behavior includes, but is not limited to, flirting; making suggestive comments; dating; requests for sexual activity; giving inappropriate personal gifts; providing alcohol or drugs to students; inappropriate touching; engaging in sexual contact and/or sexual relations; private or frequent personal communication with a student (via phone, e-mail, social media, letters, notes, etc.) unrelated to course work or official school matters. In order to avoid the perception of impropriety, electronic communications should not take place via private accounts, but should only occur in group or public forums that can be monitored by other adults. E-mail communications should be through the District's email system.

This policy applies regardless of whether the student or the school employee initiated the behavior, and whether or not the student welcomes the behavior and/or reciprocates the attention. Inappropriate fraternization of staff with students (regardless of the student's age or gender) is against District policy and may be in violation of professional standards of conduct and New York State Law.

NL Policy #

However, inappropriate employee conduct does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions.

Any student who believes that he/she has been subjected to inappropriate staff behavior as enumerated in this policy, as well as students, school employees, parents or others who have knowledge of or witness any possible occurrence of inappropriate staff-student relations, shall report

5670b

STAFF-STUDENT RELATIONS (FRATERNIZATION)

the incident to any staff member or either the employee's supervisor, the student's principal or the District's designated complaint officer. In all events such reports shall be forwarded to the designated complaint officer for further investigation. Anonymous complaints of inappropriate fraternization of staff members with students shall also be recorded and investigated as appropriate by the District.

Investigations of allegations of inappropriate staff-student relations shall follow the procedures utilized for complaints of harassment within the School District. Allegations of inappropriate staff-student behavior shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

Any employee having knowledge of or reasonable suspicion that another employee may have engaged in inappropriate conduct with a student that may constitute child abuse (specifically, child abuse in an educational setting) must also follow the District's reporting procedures for such allegations; and such information will be reported by the designated administrator as required by state law to law enforcement officials, the State Education Department and/or Child Protective Services as may be applicable.

If a student initiates inappropriate behavior toward a staff member, that employee shall document the incident and report it to his/her building principal or supervisor.

The District shall promptly investigate all complaints of inappropriate staff-student relations, according to the appropriate policy, regulation or law, and take prompt corrective action to stop such conduct if it occurs.

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of inappropriate staff-student relations.

The District's policy (or a summary thereof) shall be disseminated as appropriate to staff, students, parents and volunteers. Further, this topic shall be addressed in the District Code of Conduct.

Personal cars of teachers and staff shall not be used to transport students except in the event of extenuating circumstances and authorized by the administration.

BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, principals, directors, coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior year's submitted budget.

The budget will be presented in three (3) components which are to be voted upon as one (1) proposition:

The Board of Education insists on clear, complete, and detailed accounting of all financial transactions for which the Board is held accountable.

Accounting and Reporting Systems

The system of accounts will conform to the Uniform System of Accounts for School Districts, as defined by the State Comptroller's Office. In addition, accounting and reporting will adhere to generally accepted governmental accounting standards. The accounting system will yield information necessary for the Board to make policy decisions and perform its oversight function.

The Board directs the Business Official to keep informed of changes in state and/or Government Accounting Standards Board (GASB) accounting requirements and implement changes, as appropriate. The Board expects that the Business Official will communicate new standards and/or requirements to the Board, as necessary, so that the Board can carry out its responsibilities.

PURCHASING

The Board of Education views purchasing as serving the educational program by providing necessary supplies, equipment and related services. Purchasing will be centralized in the business office under the general supervision of the Purchasing Agent designated by the Board.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum educational value for every dollar expended. Competitive bids or quotations shall be solicited in connection with purchases pursuant to law. The General Municipal Law requires that purchase contracts for materials, equipment and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Purchases of the same commodity cannot be artificially divided for the purpose of avoiding the threshold. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

The district's purchasing activity will strive to meet the following objectives:

1. to effectively supply all administrative units in the school system with needed materials, supplies, and contracted services;
2. to obtain materials, supplies and contracted services at the lowest prices possible consistent with the quality and standards needed as determined by the Purchasing Agent in conformance with state law and regulation and in cooperation with the requisitioning authority. The educational and physical welfare of the students is the foremost consideration in making any purchase;
3. to ensure that all purchases fall within the framework of budgetary limitations and that they are consistent with the educational goals and programs of the district;
4. to maintain an appropriate and comprehensive accounting and reporting system to record and document all purchasing transactions; and
5. to ensure, through the use of proper internal controls, that loss and/or diversion of district property is prevented.

Opportunities shall be provided to all responsible suppliers to do business with the school district. Suppliers whose place of business is situated within the district may be given preferential consideration only when bids or quotations on an item or service are identical as to price, quality and other factors.

NL Policy #

6700b

PURCHASING

Where permitted by law, purchases may be made through available cooperative BOCES bids, or by “piggybacking” onto contracts of the United States or agencies thereof or the federal General Services Administration (GSA), the New York State Office of General Services (OGS), departments or agencies of New York State, any New York State county, or any state or any county or political subdivision or district therein, whenever such purchases are in the best interests of the district or will result in cost savings to the district. In addition, the district will make purchases from correctional institutions and severely disabled persons through charitable or non-profit-making agencies, as provided by law.

It is the district’s responsibility to review each “piggybacking” contract corresponding to a proposed purchase, upon the advice of counsel as necessary, to determine whether the original contract does not conflict with state law or regulation, and meets the following requirements:

1. The contract must have been let by the United States, or any agency thereof, any state, or any other political subdivision or district therein;
2. The contract must have been made available for use by other governmental entities; including New York State local governments;
3. The contract must have been let to the lowest responsible bidder or on the basis of best value, in a manner consistent with General Municipal Law §103. Those main elements are: (a) public solicitation of bids or offers; (b) secure or confidential bids or offers; (c) use of a common standard for bidders or offers to compete fairly; and (d) awarded to the lowest responsible bidder, or responsible offer of best value, which optimizes quality, cost and efficiency.

In accordance with law, the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats. The term “alternative format” shall mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a disabled student enrolled in the district (or program of a BOCES), including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file in a format compatible with alternative format conversion software that is appropriate to meet the needs of the individual student.

The Board is also aware of the need to reduce exposure of students and staff to potentially harmful chemicals and substances used in cleaning and maintenance. In accordance with law, regulation and guidelines set forth by the Office of General Services (OGS), the district will purchase and utilize environmentally sensitive cleaning and maintenance products in its facilities whenever feasible.

NL Policy #

6700c

PURCHASING

Cleaners purchased must, first and foremost, be effective so that the district may continue to purchase non-green products as necessary. Environmentally sensitive cleaning and maintenance products will be procured in accordance with standard purchasing procedures as outlined in this policy and regulation.

In order to ensure that the district avails itself of advantageous purchasing opportunities, the Board authorizes the Purchasing Agent to represent the district in applying for federal programs designed to discount prices for goods and services. Specifically, the Purchasing Agent will abide by the rules and regulations associated with applying for telecommunications service discounts through the Universal Service Fund (E-Rate), in addition to complying with the local purchasing policies set forth by the Board. As with all purchasing activity, appropriate documentation of the application and purchase through any federal program will be maintained by the business office.

Competitive Bidding

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163. Other exceptions to competitive bidding are outlined below.

In addition, the Board authorizes the receipt of sealed bids for purchase contracts in electronic format, pursuant to the provisions of General Municipal Law §103(1) which addresses proper documentation, authentication, security, and confidentiality of electronic bids.

The district shall comply with the requirements of General Municipal Law §103-g, which prohibits, with few exceptions, competitive bidding contracts with entities that invest significantly in the Iranian energy sector, as outlined in the accompanying regulation.

Exceptions to Competitive Bidding

Competitive bidding, even if the dollar value of the purchase meets the threshold established above, is not required in the following circumstances:

1. emergencies where time is a crucial factor;
2. procurements for which there is no possibility of competition (sole source items);
3. professional services that require special skill or training (see policy 6741 for guidance on purchasing professional services);
4. purchases such as surplus or second-hand items from governmental entities, certain food and milk items, or goods and services from municipal hospitals ; or

PURCHASING

5. where the district is purchasing through (or is “piggybacking” onto) the contract of another governmental entity, where the original contract complies with the requirements of New York State law for competitive bidding.

Purchasing when Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies, in the best interests of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, except as permitted by state law for procurements:

1. under a county contract;
2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

“Piggybacking” onto the contract of other governmental agencies is permitted where the original contract is in conformance with the goals of this section.

The district will provide justification and documentation of any contract awarded to an offer or other than the lowest responsible dollar offer or, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

No Board member, officer or employee of the school district shall have an interest in any contract entered into by the Board or the district, as provided in Article 18 of the General Municipal Law.

Comments will be solicited from those administrators involved in the procurement process before enactment of the district's policies regarding purchasing and from time to time thereafter. The policies must then be adopted by Board resolution. All district policies regarding the procurement processes will be reviewed by the Board at least annually.

The unintentional failure to fully comply with the provisions of section 104-b of the General Municipal Law or the district's policies regarding procurement will not be grounds to void action taken nor give rise to a cause of action against the district or any officer or employee of the district.

CONTRACTING FOR PROFESSIONAL SERVICES

The Board of Education will make certain that professional services are secured in a manner that protects the integrity of the process, ensures the prudent use of taxpayer dollars and provides a high quality standard of service, in accordance with law and regulation. Professional services are defined as services requiring special skill and/or training, such as legal services, medical services, auditing services, property appraisals or insurance.

Purchasing professional services does not require competitive bidding. The Board directs the Superintendent, to take measures to ensure that a highly qualified professional is secured through the prudent and economical use of public money, which may include:

1. reviewing trade journals;
2. checking professional listings; and/or
3. inquiring of other districts or other appropriate sources.

The designated district staff will prepare a comprehensive written request for proposals (RFP), which will contain critical details of the services sought. The RFP will specify that the proposal include the structure of the relationship between the district and the provider, including, if applicable, the terms of the retainer, the hourly fees and other associated costs.

In reviewing the RFPs, the district will consider, at a minimum, the following factors:

1. the suitability of the individual/firm for the district's needs;
2. the special knowledge or expertise of the individual/firm;
3. the credentials and applicable certifications of the individual/firm;
4. the quality of the service provided by the individual/firm;
5. cost;
6. the staffing available from the firm or the time available from the individual;

The district will periodically, but not less frequently than every three years, review the need to consider issuing professional service RFPs and may conduct interviews as part of the RFP process.

The Superintendent is charged with developing administrative procedures to implement this policy.

USE OF SCHOOL-OWNED MATERIALS AND EQUIPMENT

Except when used in connection with or when rented under provisions of Education Law Section 414, school-owned materials or equipment may be used by members of the community or by District employees and/or students for school related purposes only. Private and/or personal use of school owned materials and equipment is strictly prohibited.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment and loaned to students when the material and equipment is to be used in connection with their studies or extracurricular activities. Community members will be allowed to use school-owned materials and equipment only for educational purposes that relate to school operations. Individuals borrowing district-owned equipment shall be fully liable for any damage or loss occurring to the equipment during the period of its use, and shall be responsible for its safe return.

In addition, since Board members, officers and employees are issued district owned equipment in connection with their work responsibilities, the individual using the district owned equipment should not have an expectation of privacy with respect to information contained on the devices (e.g. computer files, images, messages).

Administrative regulations will be developed to assure the lender's responsibility for, and return of, all such materials and equipment.

CELL PHONE AND TELEPHONE POLICY

The Board of Education recognizes that the issuance of cell phones may be necessary for certain employees for the purposes of communications and safety. Upon approval from the Superintendent of Schools, cell phones will be assigned pursuant to the categories listed below:

- a) Cell phones will be assigned to certain individuals who, upon the judgment of the Superintendent need such a device to enhance communications in their job or to respond in an emergency situation. Such individuals may make personal phone calls on their cell, but must identify all such calls, and must fully reimburse the District for any charges related to personal calls.
- b) At the discretion of the Superintendent, additional cell phones will be assigned on a daily basis to provide certain individuals to communicate in an emergency situation. All individuals who are provided a phone for such purposes may not make personal calls on the phone, and must report any use to their supervisor.

The Board of Education recognizes that telephones in classrooms provide enhanced communications and safety. Classroom telephones are provided for educational, school related purposes. Long distance personal calls are not permitted.

The Superintendent of Schools will develop administrative guidelines to ensure that the District is reimbursed for any personal calls, to ensure that all cell phones are used appropriately, and to ensure that all cell phone bills are regularly inspected.

USE OF CREDIT CARDS

The Board of Education permits the use of a district credit card by the business official to pay for actual and necessary expenses incurred in the performance of work-related duties for the district. The name of the individual that will be issued a district credit card will be maintained in the business office and reported to the Board each year at its reorganizational meeting in July. All credit cards will be in the name of the school district.

The district shall establish a credit line not to exceed \$5,000.00.

The relationship between the district and the credit card company is such that the district preserves its right to refuse to pay any claim or portion thereof that is not expressly authorized, does not constitute a proper district charge, or supersedes any laws, rules, regulations, or policies otherwise applicable. In addition, the Board will ensure that no claim shall be paid unless an itemized voucher approved by the officer whose action gave rise or origin to the claim, shall have been presented to the Board and shall have been audited and allowed.

The credit card may only be used for legitimate school district business expenditures. The use of the credit card is not intended to circumvent the district's policy on purchasing.

The business official must take proper care of this credit card and take all reasonable precautions against damage, loss, or theft. Any damage, loss, or theft must be reported immediately to the Superintendent and to the appropriate financial institution. Failure to take proper care of the credit card or failure to report damage, loss or theft may subject the employee to financial liability.

Purchases that are unauthorized, illegal, represent a conflict of interest, are personal in nature or violate the intent of this policy may result in credit card revocation and discipline of the employee.

The user must submit detailed documentation, including itemized receipts for commodities, services, travel and/or other actual and necessary expenses which have been incurred in connection with school-related business for which the credit card has been used.

The Superintendent of Schools, in consultation with the business official, shall establish regulations governing the issuance and use of the credit card.

TRANSPORTATION OF STUDENTS

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the School District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

ALCOHOL AND DRUG TESTING OF DRIVERS

The Board of Education recognizes the dangers inherent in alcohol and controlled substance use by employees, especially those in safety-sensitive positions. To ensure the safety of its students, the Board requires alcohol and controlled substance testing of certain “drivers,” operators of “other school buses,” and any other employee who is subject to such testing, in accordance with and as set forth in the applicable federal and state requirements.

Definitions

1. “Driver” includes any person who operates a commercial motor vehicle. This includes, but is not limited to: Full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent owner-operator contractors.
2. “Other school buses” include those covered by applicable federal regulations (see list below) and any other motor vehicle either owned by the district or by a private company, operated to transport students, children of students, teachers, and other supervisory persons to or from school or school activities.

Testing Responsibilities

Consistent with federal regulations, the district shall directly, by contract, or through a consortium, implement and conduct a program to provide alcohol and controlled substance testing of drivers who operate a commercial motor vehicle, perform in a safety-sensitive position, and are required to hold a commercial driver’s license. Employees holding such positions include:

1. drivers of vehicles designed to transport 16 or more passengers, including the driver;
2. drivers of commercial motor vehicles whose manufacturer’s rating is 26,001 lbs. or more; or
3. any other employee who may drive or service a listed vehicle (e.g. a mechanic who performs test drives, repairs, inspects, or loads or unloads a vehicle listed in 1 or 2 above).

Controlled substance and alcohol tests will be conducted for operators of all “other school buses” consistent with the procedures applicable to the implementation of federal regulations. Volunteers who drive a bus with passengers fewer than 30 days per year are not subject to such testing.

Generally, the required testing will be conducted at or prior to the time of employment and randomly throughout the school year. However, drivers are subject to additional testing under federal regulations when a supervisor has a reasonable suspicion that a driver has engaged in prohibited

NL Policy #

8414.5b

ALCOHOL AND DRUG TESTING OF DRIVERS

alcohol or controlled substance use; after certain accidents; prior to return to duty when the driver has been found to violate district policy and federal regulations; and after the driver's return to duty.

Driving Prohibition

In accordance with federal and state law, a driver may not drive if he or she:

1. possesses, consumes or is reasonably believed to possess or have consumed alcohol or a controlled substance, while on duty;
2. uses or is under the influence of alcohol or a controlled substance that is not lawfully prescribed within six hours or less before duty;
3. has an alcohol concentration of 0.02 or higher, or tests positive for a controlled substance; or
4. refuses to take a required alcohol or controlled substance test.

Also, no driver shall use alcohol after being involved in an accident in which there was a fatality or in which the driver was cited for a moving violation and a vehicle was towed from the scene or an injury was treated away from the scene until he/she has been tested or 8 hours have passed, whichever occurs first.

Enforcement of Driving Prohibitions

The school district will not require or permit drivers of vehicles listed above, as well as operators of all "other school buses" defined above, to be on duty or operate a listed vehicle or other school bus, if it appears that they have consumed a drug/controlled substance (except those lawfully prescribed) or alcohol within the preceding eight hours. This shall be based on the person's general appearance, conduct, or other substantiating evidence. Those who maintain, repair, or garage listed vehicles or school buses that involves incidental driving without passengers, are exempt from this requirement, but are still prohibited from consuming controlled substances and alcohol within six hours of going on duty.

Response to Positive Testing Results

Any driver who is tested and found to have an alcohol concentration of at least 0.02, but less than 0.04, shall be removed from the position until his or her next regularly scheduled duty period, but not less than 24 hours following administration of the test. Any driver found to have violated this requirement may be disciplined in accordance with the provisions of the applicable collective bargaining agreement, district policy, and/or law. Operators of "other school buses" subject to random testing pursuant to New York Law will be subject to the same consequences based upon an alcohol concentration of at least 0.02 but less than 0.04 as drivers listed above.

NL Policy #

8414.5c

ALCOHOL AND DRUG TESTING OF DRIVERS

If a driver has an alcohol concentration of 0.04 or greater, or has engaged in prohibited alcohol or controlled substance use, he or she will be removed from driving duties, and referred to a substance abuse professional. The driver may be required to complete a treatment program and/or be disciplined pursuant to district policy and/or collective bargaining agreement. No driver who has abused controlled substances and/or alcohol may return to duty unless he/she has successfully passed a required return to duty test. Thereafter, the driver will be subject to follow-up testing. Operators of "other school buses" subject to random testing pursuant to New York Law will be subject to the same consequences based upon an alcohol concentration of 0.04 or greater or a positive drug test as drivers listed above.

Re-Testing

Should the district receive a dilute test result in which the creatinine concentration is greater than 5mg/dL in the case of any pre-employment, return-to-duty, follow-up, reasonable suspicion, or random test, it is the policy of the district that the individual shall be re-tested and that re-test will become the test of record.

Policy Distribution

The Superintendent of Schools shall ensure that a copy of this policy, the district's policy on misuse of alcohol and use of controlled substances, information on alcohol and drug abuse and treatment resources and any other information prescribed by federal regulations is provided to all drivers and operators of "other school buses" prior to the initiation of the testing program and to each driver or operator of "other school buses" subsequently hired or transferred to a position subject to testing.

IDLING PROHIBITION FOR BUSES AND OTHER SCHOOL VEHICLES

Allowing vehicles to idle (i.e., stopped with the engine running) produces unnecessary exhaust gas, which contains harmful chemicals and pollutants. In addition to negatively impacting the environment, these substances can cause cancer and other health problems, especially in children. Idling vehicles is not necessary to properly run or maintain vehicles, and in fact increases engine wear and wastes fuel.

Recognizing these factors, the Board of Education shall take steps to reduce the idling of school buses and other vehicles. In compliance with Education Law §3637 and Commissioner's Regulations § 156.3(h), this policy shall govern the idling of school buses and all other school vehicles whether owned, leased, or contracted for by the district.

Anyone operating a school bus or other school vehicle must turn off the engine (no idling) in the following instances:

- While waiting for passenger to load and unload on school grounds;
- When the vehicle is parked or standing on school grounds, or in front of or adjacent to any school; or
- During sporting events and other school events

However, idling may be permitted under the following conditions:

- When necessary to maintain an appropriate temperature for passenger comfort (if auxiliary heaters are not available);
- When necessary for mechanical work, or to keep the windshield clear of ice; or
- When necessary during emergencies to operate a wheelchair lift.

The district shall provide notice of these requirements to all school personnel within 5 school days after the start of the school year, or within 5 school days of beginning employment in the district.

When operating any school vehicle, drivers are encouraged to allow adequate space between their vehicle and any heavy duty motor vehicle in front of them. This will reduce the effect of exhaust emissions of the front vehicle on the air quality inside the school vehicle. When planning field trips and transportation routes, the Board also encourages using newer school vehicles for longer trips and older vehicles for shorter trips, when newer vehicles have lower emissions.

Bus Loading and Unloading Practices

Each Building Principal is responsible for developing and implementing a plan for loading and unloading buses in a safe and prompt manner that minimizes exposure to bus exhaust emissions.

When designing new or renovated school facilities, projects shall take into account the goal of prompt loading and unloading buses.

When possible, drivers must park diagonally to minimize exhaust from the bus from entering adjacent buses or school buildings. Additionally, all staff shall instruct students to board the bus promptly in the afternoon to reduce loading time.

Contracts for Student Transportation

If the district contracts with private vendors for student transportation services, any such contract entered into on or after July 1, 2008 shall include a provision requiring compliance by vendor with the state's bus idling laws and regulations summarized in this policy.

Monitoring and Review

The Transportation Supervisor shall be responsible for monitoring compliance with the requirements of law and regulations summarized in this policy.

The Board shall receive a periodic report on the district's compliance with this policy, annually.

SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)

School Food Service Program (Lunch and Breakfast)

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary and secondary students in the schools of the District.

The Superintendent or his/her designee shall have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until the end of the last scheduled meal period.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

Restrictions on Sale of Milk Prohibited

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

NL Policy #

SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

HACCP-Based Food Safety Program

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District will ensure that a written school food safety plan is in place which: includes methods for documenting menu items in the appropriate HACCP process category; documenting critical control points of food production; monitoring; establishing and documenting corrective actions; recordkeeping; and reviewing and revising the overall food safety program.

“CHARGING” SCHOOL MEALS AND PROHIBITION AGAINST SHAMING

The Board of Education recognizes that on occasion, students may not have enough funds for a meal. To ensure that students do not go hungry, the Board will allow students who do not have enough funds to “charge” the cost of meals to be paid back at a later date subject to the terms in this policy.

To comply with State guidelines and maintain a system for accounting for charged meals, regarding both full and reduced-price meals, the Board shall:

1. allow only regular reimbursable meals to be charged, excluding extras, à la carte items, side dishes, additional meals, and snacks (“competitive foods”); and
2. use a computer-generated point of sale system, which identifies and records all meals as well as collects repayments.

Charged meals must be counted and claimed for reimbursement on the day that the student charged (received) the meal, not the day the charge is paid back. When charges are paid, these monies are not to be considered “à la carte” transactions, as a section on the daily cash report or deposit summary reads “charges paid.”

Students shall not be denied a reimbursable meal, even if they have accrued a negative balance from other cafeteria purchases, unless the parent/guardian has provided written permission to the school to withhold a meal. No student with unpaid charges will be prohibited from purchasing food if they have money that day.

If school food authorities (SFAs) suspect that a student may be abusing this policy, written notice will be provided to the parent/guardian.

Students who cannot pay for a meal or who have unpaid meal debt shall not be publicly identified or stigmatized (including wristbands or hand stamps), required to do chores or work to pay for meals, or have meals thrown away after they have been served. District staff shall not discuss a student’s unpaid meal debt in front of other students. The district shall not take any action directed at a student to collect unpaid school meal fees. However, the district may discreetly notify students of their account balances, and why certain items (e.g., à la carte, etc.) could not be provided with charged meals.

NL Policy

8505b

Community Eligibility Provision/Provision 2

Any school in the district participating in the Community Eligibility Provision or Provision 2 option of the USDA's Food and Nutrition Services provides free meals to all students attending that school. Each student at such a school receives one meal per day per type (e.g., breakfast, lunch). Any such student who wishes to purchase additional meals or other food items must pay for those items at the time of the sale. Charging to accounts for such "à la carte" items is not permitted if students do not have funds available.

Student Account Balance Notification

The district's payment system allows for automatic replenishment when a balance reaches a certain amount set by the parent/guardian. The district shall encourage parents/guardians to utilize this option.

Parents/guardians shall be discreetly notified of student account balances regularly. When a student's account balance falls to \$_____ and whenever a meal is charged, the district will discreetly notify the parent/guardian of the balance, and the process to refill the account. This notification will continue regularly until the account is replenished. Parents/guardians must repay all unpaid charges remaining at the end of the year or before their child leaves the district, whichever occurs first.

The district shall discreetly notify parents/guardians of students with negative balances of at least five meals, determine if the student is directly certified to be eligible for free meals, and attempt to reach the parent/guardian to assist them in the application process for free and/or reduced price meals, and determine if there are other issues within the household causing the insufficient funds and offer appropriate assistance. If a parent/guardian regularly fails to provide meal money and does not qualify for free or reduced price meals, the district may take other actions as appropriate, including notifying the local department of social services if neglect is suspected.

The school district shall notify all parents/guardians in writing on an annual basis at the start of the school year and to families transferring during the year, outlining the requirements of this policy. The policy shall also be published in appropriate school and district publications. All staff involved in implementing and enforcing this policy shall also be notified of these requirements and their responsibilities. The district's enrollment process shall include the application process for free and reduced price meals. If the district becomes aware that a student is so eligible, it shall file an application for the student. Staff responsible for assisting foster, homeless and migrant students shall coordinate with the food services staff to ensure such students receive free school meals.

NL Policy

8505c

Unpaid Meal Charges and Debt Collection

Unpaid meal charges are a financial burden to the district and taxpayers and can negatively affect the school program. Unpaid meal charges shall be considered “delinquent” as per the district’s accounting practices. The district shall attempt to recover unpaid meal charges before the end of the school year, but may continue efforts into the next school year. The district shall notify parents/guardians of unpaid meal charges at regular intervals, and may engage in collection activities by district staff, which do not involve debt collectors as defined in federal law (15 USC §1692a), and may not charge fees or interest or file a lawsuit against students’ parents or guardians. The district shall offer repayment plans, and may take other actions that do not result in harm or shame to the child, until unpaid charges are paid.

Remaining Account Balances

Remaining funds may be carried over to the next school year. When students leave the district or graduate, the district will attempt to contact the parent/guardian to return remaining funds. Parents/guardians may request that funds be transferred to other students (e.g., siblings, unpaid accounts). All transfer requests must be in writing. Unclaimed funds remaining after **[insert amount of time, such as: three months]** shall be absorbed by the school meal account.

Building Principals, working with the head of food services, shall ensure that all district and food service staff with responsibilities under this policy will be trained on the provisions of this policy and the requirements of Education Law section 908.

Staff

Staff members are allowed to purchase food from the district’s food services. However, all purchases must be paid for at the point of sale **[insert as applicable: cash, payment account, credit/debit card]**. Staff members are not allowed to charge meals to be repaid later.

CONFIDENTIALITY OF COMPUTERIZED INFORMATION

The Board of Education recognizes that computers are a powerful and valuable education and research tool and as such are an important part of the instructional program. In addition, the district depends upon computers as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the Boards expectations in regard to these different aspects of the district's computer resources.

General Provisions

The Superintendent shall be responsible for designating a network systems engineer who will oversee the use of district computer resources.

The Superintendent, working in conjunction with the administrative team and the technology committee will be responsible for the purchase and distribution of computer software and hardware throughout the schools. They shall prepare and submit for NYSED's approval a comprehensive multi-year technology plan which shall be revised as necessary to reflect changing technology and/or district needs.

The Superintendent, working with the network systems engineer, shall establish regulations governing the use and security of the district's computer resources (computer resources include all devices that process data, including but not limited to, laptops, fax machines, copiers and scanners). The security and integrity of the district computer network and data is a serious concern to the Board and the district will make every reasonable effort to maintain the security of the system. All users of the district's computer resources shall comply with this policy and regulation, as well as the district's Acceptable Use Policy (4526). Failure to comply may result in disciplinary action, as well as suspension and/or revocation of computer access privileges.

All users of the district's computer resources must understand that use is a privilege, not a right, and that use entails responsibility. Users of the district's computer network must not expect, nor does the district guarantee, privacy for electronic mail (e-mail) or any use of the district's computer network. The district reserves the right to access and view any material stored on district equipment or any material used in conjunction with the district's computer network.

Management of Computer Records

NL Policy #

The Board recognizes that since district data is managed by computer, it is critical to exercise appropriate control over computer records, including financial, personnel and student information.

8630b

CONFIDENTIALITY OF COMPUTERIZED INFORMATION

The Superintendent, working with the network systems engineer and the district's business official, shall establish procedures governing management of computer records taking into account whether the records are stored onsite on district servers or on remote servers in the "cloud".

The procedures will address:

- passwords,
- system administration,
- separation of duties,
- remote access,
- encryption,
- data back-up (including archiving of e-mail),
- record retention, and
- disaster recovery plans and notification plans.

If the district contracts with a third-party vendor for computing services, the Superintendent, in consultation with the Business Official will ensure that all agreements address the procedures listed above, as applicable.

Review and Dissemination

Since computer technology is a rapidly changing area, it is important that this policy be reviewed periodically by the Board and the district's internal and external auditors. The acceptable use policy governing appropriate computer use will be distributed annually to staff. Students will receive annual instruction in acceptable use of computers.

Further, the District is required to notify affected individuals when there has been or is reasonably believed to have been a compromise of the individual's *private information* in compliance with the Information Security Breach and Notification Act and Board policy.

a) "*Private information*" shall mean ****personal information** in combination with any one or more of the following data elements, when either the personal information or the data element is not encrypted or encrypted with an encryption key that has also been acquired:

1. Social security number;
2. Driver's license number or non-driver identification card number; or
3. Account number, credit or debit card number, in combination with any required security code, access code, or password which would permit access to an individual's financial account.

"*Private information*" does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

****"***Personal information***"** shall mean any information concerning a person which, because of name, number, symbol, mark or other identifier, can be used to identify that person.

b) "*Breach of the security of the system*," shall mean unauthorized acquisition or acquisition without valid authorization of computerized data which compromises the security, confidentiality, or integrity of personal information maintained by the District. Good faith acquisition of personal information by an employee or agent of the District for the purposes of the District is not a breach of the security of the system, provided that private information is not used or subject to unauthorized disclosure.

Examples of Determining Factors

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized person or person without valid authorization, the District may consider the following factors, among others:

a) Indications that the information is in the physical possession and control of an unauthorized person, such as a lost or stolen computer or other device containing information; or

- b) Indications that the information has been downloaded or copied; or
- c) Indications that the information was used by an unauthorized person, such as fraudulent accounts opened or instances of identity theft reported.

Notification Requirements

- a) For any computerized data owned or licensed by the School District that includes private information, the District shall disclose any breach of the security of the system following discovery or notification of the breach to any New York State resident whose private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Cyber Security and Critical Infrastructure Coordination (CSCIC) to determine the scope of the breach and restoration measures.
- b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization.

The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one of the following methods:

- a) Written notice;
- b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. CONFLICT OF INTEREST

The Board of Education is committed to avoiding any situation in which the existence of simultaneous, conflicting interests in any officer, employee or agent may call into question the integrity of the management or operation of the school district. Therefore:

No person employed by the district shall hire, supervise, evaluate, promote, review or discipline any other employee who is a member of the same family. In the event that marriage, promotion, or reorganization results in a situation not in compliance with this policy, reassignment or transfer will be effected, in accordance with the applicable provisions of any collective bargaining agreement, to correct the situation.

No person employed by the district shall negotiate or execute any contract on behalf of the district for the purchase, sale or lease of real or personal property, services of any nature, nor for insurance without first having determined the common price for such property, services or insurance, or requesting bids from all potential providers of such property, services or insurance.

The Board affirms its commitment to adhere scrupulously to all applicable provisions of law regarding material conflicts of interest.

Knowing or willful violation of this policy by any employee may result in disciplinary action up to and including dismissal.

Any officer, employee, agent or member of the public noting or suspecting a violation of this policy is encouraged to bring the matter, either in confidence or in public, to the Board or the Superintendent of Schools.

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. The officers, employees, and agents of the non-Federal entity may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. REIMBURSEMENT FOR MEALS/REFRESHMENTS

Travel Outside of District/Emergency Meetings

School District officials and employees are entitled to reimbursement for necessary expenses incurred in the performance of their official duties. However, it is the position of the New York State Comptroller's Office that meals of public officers and employees generally should not be reimbursed or paid by the municipal entity unless the officer or employee is traveling outside his/her regular work area on official business for an extended period of time, or where events prevent them from taking off during mealtime for food consumption because of a pressing need to complete business. All requests for reimbursement must document who attended the meetings and how the meetings fit these conditions.

Staff/Board Meetings and District Events

The Board of Education recognizes that at certain times it may be appropriate to provide meals and/or refreshments at District meetings and/or events which are being held for an educational purpose. Prior approval of the Superintendent/designee must be obtained for food and beverages provided at meetings or activities which will be charged to the District.

Any such expenditures must be appropriately documented with an itemized receipt and information showing the date and purpose of the meeting, food served, who attended the meetings and why the attendees needed food and/or refreshments to conduct School District business. These requirements must be met for meals/refreshments provided by the school lunch fund or local vendors, charged to District credit cards and/or reimbursed to a School District official.

In no case will the costs for meals exceed the current Federal per diem meal rates for the geographic area.

As the employer for the school district, the Board will provide and maintain qualified and certified instructional and support personnel to carry out the educational programs of the district.

The Superintendent of Schools shall implement and maintain a high-quality recruiting and hiring program to attract, secure and retain the best-qualified staff to meet the needs of students and the district.

New or Revised Positions

The Superintendent of Schools will develop recommended qualifications for all new positions in the district and review the qualifications for all existing positions as necessary. The Board must approve the qualifications for all new positions in the district and revisions of the qualifications for existing positions.

The Superintendent of Schools shall develop job descriptions that incorporate the qualifications and job duties for all positions in the school district.

Recruiting

The district will seek the most qualified candidates for vacant positions by recruiting from a variety of sources, including present staff. District employees may apply for all positions for which they meet the certification and other stated qualifications.

The Board and its employees will adhere to the practice of recruiting and hiring personnel without regard to age, color, creed, disability, marital status, national origin, race, religion, sex or any other status protected by federal or state law.

The Board will practice due diligence in finding the most qualified persons for any open positions.

The Board recognizes that some specialized positions are difficult to fill because of shortages of qualified candidates. To provide for the safety of students who have contact with an employee holding a conditional appointment or an emergency conditional appointment, the Board adopts the following policy.

No district employee who holds a conditional or emergency conditional appointment shall be in contact with students other than to provide instruction and/or other required services.

No district employee who holds a conditional or emergency conditional appointment shall teach a class or provide services to students with his/her classroom or office door closed unless the Building Principal has provided express prior permission to do otherwise.

EMPLOYEE ACTIVITIES

Political Activities

The Board of Education recognizes the right of its employees, as citizens, to engage in political activities and to exercise their constitutionally-protected rights to address matters of public concern.

FAMILY AND MEDICAL LEAVE ACT

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District. The District will compute the twelve-month period according to the following time frame: a "rolling" twelve-month period will be used that is measured backward from the date an employee uses any FMLA leave.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. The law covers both full-time and part-time employees.

Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the infant;
- b) Adoption of a child and care for the infant;
- c) The placement with the employee of a child in foster care;
- d) To care for a spouse, child or parent who has a serious health condition as defined by the FMLA;
- e) A serious health condition of the employee, as defined by the FMLA, that prevents the employee from performing his/her job;
- f) Because of "any qualifying exigency" (such term as defined by regulations issued by the Secretary of Labor) arising out of the fact that the spouse, son, daughter, or parent of the employee is serving in either the National Guard or the Reserves and is on active duty, or has been notified of an impending call to active duty status, in support of a contingency operation.

Service Member Family Leave

An eligible employee who is the spouse, son, daughter, parent, or next of kin (defined as the nearest blood relative of that individual) of a covered service member who is recovering from a serious illness or injury sustained in the line of duty while on active duty is entitled to up to twenty six (26) weeks of leave in a single 12-month period to care for the service member. This military caregiver leave is available during a single 12-month period during which an eligible employee is entitled to a combined total of twenty-six (26) weeks of all types of FMLA leave.

NL Policy #

9520.2b

FAMILY AND MEDICAL LEAVE ACT

The term "covered service member" means a member of the Armed Forces, including a member of the National Guard or Reserves.

Implementation/Benefits

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In addition, the Board may require an employee to submit certification from a health care provider to substantiate that the leave is due to the serious health condition of the employee or the employee's immediate family member. Failure to comply with these requirements may result in the denial of FMLA leave. The Board may also require that an employee present a certification of fitness to return to work when the absence was caused by the employee's serious health condition. The Board of Education has the right to deny restoration to employment if the employee does not furnish the certificate of fitness.

Notice for Leave Due to Active Duty of Family Member

In any case in which the necessity for leave due to any qualifying exigency is foreseeable, whether because the spouse, or a son, daughter, or parent of the employee is on active duty, or because of notification of an impending call or order to active duty in support of a contingency operation, the employee shall provide such notice to the employer as is reasonable and practicable.

FMLA Notice

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building.

Administration is directed to develop regulations to implement this policy, informing employees of their rights and responsibilities under the FMLA.

CHILD ABUSE IN AN EDUCATIONAL SETTING

The Board of Education recognizes that children have the right to an educational setting that does not threaten their physical and emotional health and development. Child abuse by school personnel and school volunteers violates this right and therefore is strictly prohibited.

Allegations of child abuse by school personnel and school volunteers shall be reported in accordance with the requirements of Article 23-B of the Education Law.

1. promptly complete the required State Education Department report form; and
2. personally deliver it to the Principal of the school in which the child abuse allegedly occurred.

If the allegation involves a child who was allegedly abused by an employee or a volunteer of a school in another school district, the required reporter must promptly forward the report form to the Superintendent of the district of attendance and the Superintendent of the school district where the abuse allegedly occurred (if different).

Upon receiving a written report, the Principal shall determine whether there is reasonable suspicion to believe that an act of child abuse has occurred. In those circumstances where the Superintendent receives the written report directly, he or she will be responsible for making the reasonable suspicion determination.

If the Principal/Superintendent determines there is reasonable suspicion to believe that an act of child abuse has occurred, he or she shall promptly notify the parent of the alleged child victim (assuming that the parent is not the person who originally reported the alleged abuse) that an allegation of child abuse in an educational setting has been made and promptly provide the parent with the written statement setting forth parental rights, responsibilities and procedures prepared in accordance with the Regulations of the Commissioner of Education.

If the person making the allegation of abuse is someone other than the child or the child's parent, the Principal/Superintendent shall contact the person making the report to learn the source and basis for the allegation.

NL Policy #

The Principal shall also promptly provide a copy of the written report to the Superintendent and send a copy to the appropriate law enforcement authorities. In no event shall the Principal delay in sending the report to law enforcement because of an inability to contact the Superintendent.

The Superintendent shall send to the Commissioner of Education any written report forwarded to the local law enforcement authorities where the employee or volunteer alleged to have committed an act of child abuse holds a certification or license issued by the department.

Rights of Employees and Volunteers

Any employee or volunteer against whom an allegation of child abuse has been made and against whom the district intends to take adverse action shall be entitled to receive a copy of the report and to respond to the allegations. In addition, such persons are entitled to seek disclosure of reports involving them under the Freedom of Information Law.

Confidentiality

All reports, photographs, and other written material submitted pursuant to this policy and Article 23-B of the Education Law shall be confidential and may not be disclosed except to law enforcement authorities involved in investigating the alleged abuse or except as expressly authorized by law or pursuant to a court-ordered subpoena. The Principal and Superintendent shall exercise reasonable care to prevent unauthorized disclosure.

Penalties

Willful failure of an employee to prepare and submit a written report of alleged child abuse required by Article 23-B of the Education Law shall be a class A misdemeanor.

Willful failure of any Principal or Superintendent to submit a written report of alleged child abuse to an appropriate law enforcement authority, as required by Article 23-B of the Education Law, shall be a class A misdemeanor. In addition, the Commissioner of Education may, following an administrative determination, impose a civil penalty of up to five thousand dollars on any administrator who fails to submit a report of child abuse to an appropriate law enforcement authority.

The law further prohibits any Principal or Superintendent from agreeing to withhold from the appropriate law enforcement authorities, a superintendent or the Commissioner of Education, where appropriate, an allegation of child abuse in an educational setting on the part of any employee or volunteer as required by law, in return for the resignation or voluntary suspension of the alleged

Disclosure and Investigation

Employees and officers who know or have reasonable cause to believe that wrongful conduct has occurred shall report such mismanagement, fraud or abuse to the Superintendent of Schools, the School Attorney or the Independent Auditor. Each of these Board-designated officers, upon receiving a report of alleged wrongful conduct, shall take immediate steps to conduct an investigation.

Staff members who suspect that a violation of state testing procedures has occurred shall report their concerns to the Building Principal, the Superintendent, or the State Education Department. Any Building Principal receiving such a report shall relay this information to the Superintendent.

The Superintendent, School Attorney or the Independent Auditor shall maintain a written record of the allegation, conduct an investigation to ensure that the appropriate unit (auditors, police, SED, etc.) investigates the disclosure, and notify the Board when appropriate to do so.

Except as otherwise provided in either state and/or federal law, the Board-designated officer shall make all reasonable attempts to protect the identity of the employee making the disclosure in a

confidential manner, as long as doing so does not interfere with conducting an investigation of the specific allegations or taking corrective action.

The district shall not take adverse employment action against an employee who has notified the district of wrongdoing, allowing the district the opportunity to investigate and correct the misconduct.

Complaints of Reprisal

An employee who has been subject to an adverse employment action based on his or her prior disclosure of alleged or actual wrongful conduct may contest the action by filing a written complaint of reprisal with the Board President. The Board President, or his/her designee, will review the complaint expeditiously to determine:

- whether the complainant made a disclosure of alleged wrongful conduct before an adverse employment action was taken;
- whether the responding party could reasonably have been construed to have had knowledge of the disclosure and the identity of the disclosing employee;
- whether the complainant has in fact suffered an adverse employment action after having made the disclosure; and
- whether the complainant alleges that adverse employment action occurred as a result of the disclosure.

If the designee determines that all of the above elements are present, he or she shall appoint a review officer or panel to investigate the claim and make a recommendation to the Board. At the time of appointment, the designee shall inform the complainant and the respondent, in writing, of:

- the intent to proceed with an investigation;
- the specific allegations to be investigated;
- the appointment of the review officer or panel; and
- the opportunity of each party to support or respond, in writing, to the allegation.

Once the review officer or panel has conducted a review and considers the investigation to be complete, the officer or panel will notify the designee of its completion. From the date of that notice, the review officer has 30 days to report his or her findings and make any recommendations he or she deems appropriate to the designee. The designee, in conferral with the appropriate administrator shall issue a letter of findings to both the complainant and the respondent.
